

# ANNA CAROLE ROTHSTEIN

## ABOUT ME

I am a determined and disciplined person who works quickly and efficiently. My structured approach and organizational skills enable me to plan and manage projects effectively. I am always open to new ideas and can easily become enthusiastic about various topics. By thoroughly engaging with a subject and empathizing with different situations, I am able to find and implement creative and innovative solutions with my imaginative thinking. As a reliable team member who is eager to learn and adaptable, I am able to work well in groups while also completing tasks independently and responsibly.

My goal is to make valuable contributions in the field of architecture and to bring new perspectives through my work. I place people at the center of my efforts while also developing sustainable solutions for the built environment.
