if your membership is paid in full by April 30, 2024.					

Name:	Relationship to Member	Date of Birth	Age as of 5/25/24

"Household" = The Club's dues assessment structure is first based on the number of adults living in the same household who desire to use the swim club. Each household must have at least one bond holding adult who has a paid membership for the current season. Next, the number of children of the adult Member(s) living in the household between the ages of 3 to 17 (regardless of the child's desire, ability or intent to use the Club during the 2024 season). A family is not required to pay membership dues for a child who will graduate from high school in June 2024; however the family may elect and pay to have membership privileges for this child.
