MASTER CLASS
ELITE GROUP
Lead. Innovate. Build Community.

Our Vision:

Arcuity delivers powerful record review and retrieval through AI technology.

We activate and authenticate record retrieval and conduct full-case document conceptual search to secure a reduction of record duplications and their associated costs.

Our Innovation:

We are building a Neural Search feature which allows users to rapidly search records by both concepts and keywords. Using advanced artificial intelligence and machine learning to easily identify, review, annotate and summarize all records simultaneously.
