

Job Opening- Site Inspectors

Job ID:M4-2024-IT21

Site Inspectors- Civil, Electrical

Job Overview:

Method4(“M4”) Engineering Inc. is a dynamic Canadian company with offices in Guyana and Canada. Method4 provides a wide range of Engineering and Construction services for clients in the power utility, renewable and Oil and Gas sectors. Method4 is looking several highly motivated Civil and Substation Electrical Site Inspectors to join our engineering/Quality department on a fulltime basis in Canada/Guyana. The successful candidate will be working on power projects currently being executed in Guyana, Canada and USA. This successful candidate must have excellent language skills and will be required to work in a team with 50 + engineers to develop and perform quality checks various utility scale Powerlines, Substation and renewable projects. Candidate will be expected to work fulltime hours from 9:30am Mon-Saturday at minimum, overtime is paid after 40hrs. Work location is in Calgary, AB, Canada/Guyana. Method4 will assist foreign applicants with work permit applications.

Requirements for the Role:

- 1) Must have a technical Diploma.
- 2) Min 15 years Experience Designing Electrical Substations
- 3) Must have good English language skills.
- 4) Detail oriented, Motivated with strong leadership qualities.

Responsibilities:

- Excellent and ongoing working knowledge of Powerlines, Renewable, Outdoor electrical P&C and SCADA designs.
- Project quality management for various utility projects
- Coordinate with other engineering disciplines to ensure overall design conformance is accomplished at site through the M4 QMS.
- Ensure Engineering processes are followed and maintained and to ISO9001Standards.
- Liase with Engineers to ensure compliance with all project requirements – send RFI when in doubt.
- This is a majority field works.
- Must be fit and good with technology as most of our QMS system/forms are digital
- Manage subcontractors when required
