

VENEERS: FROM PREP DESIGN TO CEMENTATION

Dr John Nosti has been a full time practicing dentist with a focus on complex rehabilitations and cosmetics for over 28 years.

He holds fellowships in multiple organizations, is the Founder and Clinical Director of the Clinical Mastery Series, where he has authored the Ultimate Occlusion series (1-5) and In the Op Full Mouth Rehab courses, and is faculty of the Resnik Implant institute.

He has published over 26 articles, and is co-author of the upcoming Resnik Implant Prosthetic textbook.

Course Overview:

Patients today are as cosmetically motivated as they have ever been.

Join Dr. John Nosti as he discusses Case Selection, Smile Design Principles, how to order your Waxup RX, Preparation designs, Temporization Technique, Cementation, and all the records necessary from your first visit to delivery day of your Veneer/Smile Design Cases.

Learning Objectives:

1. Preparation Design for Anterior and Posterior All Ceramic Restorations as they relate to smile design
2. How occlusion relates to veneers and smile design cases
3. How to insert 10 veneers/all ceramic restorations
4. Common Aesthetic Complications in Smile Design
5. How to Plan your Cosmetic/smile Design case
