

The Early Years Foundation Stage Curriculum

Early Years Foundation Stage Curriculum

The EYFS Framework exists to support all professionals to help your child stay safe, develop and learn.

You can access the EYFS at

https://www.foundationyears.org.uk/files/2017/03/EYFS_STATUTORY_FRAMEWORK_2017.pdf

This framework sets out:

- The legal welfare requirements that everyone registered to look after children must follow to keep your child **safe** and promote their welfare
- The 7 areas of **learning and development** which guide professionals' engagement with your child's play and activities as they learn new skills and knowledge
- Assessments that will tell you about **your child's progress** through the EYFS
- Expected levels that your child should reach at age 5, usually the end of the reception year; these expectations are called the "**Early Learning Goals (ELGs)**"

There is also guidance for the professionals supporting your child on planning the learning activities, and observing and assessing what and how your child is learning

and developing.

What does it mean for me as a parent?

Ensuring my child's safety

Much thought has been given to making sure that your child is as safe as possible. Within the EYFS there is a set of welfare standards that everyone must follow. These include the numbers of staff required in a nursery, staff qualifications and things like administering medicines and carrying out risk assessments etc.

Quality

You can find out about the quality of your child's nursery and other early years providers in relation to the EYFS Framework by checking what the Government's official inspection body for early years, Ofsted, has to say about it. You can find this information at www.ofsted.gov.uk/inspection-reports/find-inspection-report.

How my child will be learning

The EYFS Framework explains how and what your child will be learning to support their healthy development. Your child will be learning skills, acquiring new

knowledge and demonstrating their understanding through **7 areas of learning and development**.

Children should mostly develop the **3 prime areas** first. These are:

- Communication and language;
- Physical development; and
- Personal, social and emotional development.

These prime areas are those most essential for your child's healthy development and future learning.

As children grow, the prime areas will help them to develop skills in **4 specific areas**. These are:

- Literacy;
- Mathematics;
- Understanding the world; and
- Expressive arts and design.

These 7 areas are used to plan your child's learning and activities. The professionals teaching and supporting your child will make sure that the activities are suited to your child's unique needs. This is a little bit like a curriculum in primary and secondary schools, but it's suitable for very young children, and it's designed to be really flexible so that staff can follow your child's unique needs and interests.

Children in the EYFS learn by playing and exploring, being active, and through creative and critical thinking which takes place both indoors and outside.

As a mum or dad, how can I help with my child's learning?

All the fun activities that you do with your child at home are important in supporting their learning and development, and have a really long lasting effect on your child's learning as they progress through school.

Even when your child is very young and is not yet able to talk, talking to them helps them to learn and understand new words and ideas. If you make the time every day to do some of the following things with your child it will make a real difference to your child's confidence as a young learner. Staff can also give you advice about the kinds of books or other activities your child might enjoy at different ages.

How can I find out how my child is getting on?

It is important that you and the professionals caring for your child work together. You should feel comfortable about exchanging information and discussing things that benefit your child. Every child is assigned a Key Worker who

- Is your main point of contact within the setting
- Helps your child to become settled, happy and safe
- Is responsible for your child's care, development and learning
- Takes a careful note of your child's progress, sharing this with you and giving you ideas as to how to help your child at home

Where can I go for further information?

You can find the **Early Years Foundation Stage** which includes the early learning goals at www.foundationyears.org.uk. The foundation years website also includes a range of resources and contacts
