# The Gestalt Women's Leadership Masterclass

An immersive, experience-based program for women leaders who want to lead with clarity, confidence, and impact—without abandoning who they are.

“

*This program helped me recognize how the ways we show up as leaders are shaped by inner voices—some rooted in fear, shame, and self-preservation, others grounded in wisdom and purpose. Maxine's coaching gave me a concrete **plan**: to cultivate greater self-awareness of those saboteurs, to shift from fear-based motivation to purpose-driven leadership, and to intentionally foster the growth and well-being of the people I lead.*

*For this gift of insight and practical transformation, I am deeply grateful.*
