

Curie Learning

2022-2023 Academic Year

Classes Start on August 26th, 2022

For us, education is not just a business.
It is a passion and commitment to guide and support students to reach their optimum potential.

The Curie Learning program is designed for academically inclined students who need a challenge. Ongoing and future success of a child critically depends on laying a strong foundation in Math/English during elementary and middle school years. We have completed twelve years serving the region and strive to offer the best Math and English programs available in the region for elementary-school, middle-school, and high-school students.

We are now accepting registrations for the 2022-2023 academic year for students ages 5-13. We also offer SAT/ACT Coaching and Writing classes for High-school students, and many other courses for students of all levels.

Any new student who is not continuing from the past school year is required to complete an entrance exam before enrolling. **For more information regarding the entrance exam and registration information, please send an e-mail to curielearning@gmail.com.**

Online (Live) Math Instructional Sessions (Levels 1-6) & Online Private English Sessions (Levels 5-7)

Online Instructional Math Sessions (New Option):

All Levels 1-6 are provided with instructional videos included on the Google Classroom. Every week, students are required to watch a video, and complete the NOTES section along with the video, *before* attending their regular weekly classes with their teachers. As a substitute for these videos, students will be invited to a weekly online instructional session. This session is optional for students as the lesson taught within any given week is identical to the lesson taught on the provided video. Students may prefer these live sessions as they may be able to ask the teacher questions while receiving the instruction. Students who attend the live sessions will also be provided with the instructional video to use as a reference.

Students who attend these sessions will receive the instruction for the scheduled lesson *only*. Any homework questions or questions related to topics from another lesson must be reserved for the regularly weekly class. **The duration of the session will depend on the length of the lesson. They will always start at the starting time, but may not last for the entire allotted time frame.**

Online Private English Meetings (for Levels 5 & 6):

Levels 5 & 6 English students will be assigned approximately one essay every month. Students will have the opportunity to meet privately with their English teachers for 20 minutes (online through ZOOM) to discuss their submitted rough or final drafts of their most recent essay. Student will be expected to take notes during the session, to take the teachers' suggestions, and to make the appropriate changes on their final drafts.

All meetings will be scheduled on the day of the week mentioned on this Academic Year Schedule; they will be held on a separate day/time than the regular week class. A sign-up sheet will be released to students via Google Classroom. Students will need to sign up ahead of time for their individual time slot.

**ONLY ONE TIME SLOT WILL BE RESERVED PER STUDENT PER ESSAY
(APPROXIMATELY ONCE PER MONTH)
SHORTER MONTHS MAY BE SKIPPED ACCORDING TO THE SCHEDULE**

*Any session missed by the student will not be accommodated.

*Students/Parents will be provided with the sign-up sheet at least two weeks in advance. Students/Parents may be able to switch their slot up until 24 hours before the scheduled meeting, but those who miss a meeting will not be granted a make-up.

*For Saturday (in-person) sections, the teacher may make the exception to meet in person since the student is already in the building for the class.

How to Read the Schedule:

This is the day that students will meet for their classes (math and English classes).

This is the time that students will meet for their regular weekly classes (math and English classes).
