

# 2024 Winter Course Schedule

For us, education is not just a business.  
It is a passion and commitment to guide and support students to reach their optimum potential.

The Curie Learning program is designed for academically inclined students who are looking for a challenge. Here at Curie Learning, we believe that ongoing and future success of a child critically depends on laying a strong foundation in work ethic and high expectations. We have completed twelve years serving the region and strive to offer the best math and English programs available in the region for elementary-school, middle-school, and high-school students.

## Course Admissions Open Now

We are now accepting registrations for the 2024 winter courses. Any new student who is not continuing from the past school year is required to complete an placement test before enrolling.

For more information regarding the entrance exam and registration information, please send an e-mail to [curielearning@gmail.com](mailto:curielearning@gmail.com).

### AP Precalculus / Precalculus / TJ Math 4

This class is intended to prepare students for the AP Precalculus Test in May 2024. This course gives the students a head start with the concepts taught in Precalculus course, and helps them gain a thorough understanding of Pre-Calculus concepts necessary for success in higher level math courses like AP Calculus AB/BC. Students who are currently enrolled in Precalculus or Algebra 2 in school can take this course. Our program will help prepare students for this high-school-credit math class (which affects their high school GPA). Not only will we give the students a head start with the concepts taught in any Pre-Calculus course, we will help them to transition into an advanced Pre-Calculus course by expecting a certain degree of rigor and independent learning skills. Also, gaining a thorough understanding of Pre-Calculus concepts is necessary to prepare for higher level math courses like AP Calculus, Calculus AB/BC, and AP Statistics.

## STEM CAMP

### Robotics & Arduinos CAMP– (In-Person)

#### Rising 5<sup>th</sup> to 8<sup>th</sup> Graders

During this **4 Days camp**, students will use hands-on robotics kits along with our experienced robotics instructors to learn the intricacies of Arduinos and robotics. Our team of instructors will be walking students through the basics of assembling the robotics kit to programming it to follow a line, detect walls, and many other projects throughout the week. Students will learn the basics of C++ and Arduino programming, and will gain experience with assembling and testing a robot kit.

\*Robotics kit is included value of \$80.00.

## CAMP: Quantum Computing – (In-Person)

Rising 5<sup>th</sup> to 8<sup>th</sup> Graders

This camp is run by qMe, an organization created by high school students for younger students! Along with the Quantum Computing course (that includes the same topics/curriculum), we have decided to run the course in a week-long camp format as well. This way, students will have the opportunity to work on the activities while receiving more support and supervision. In this in-person camp, students will be taking part in day-to-day coding activities, starting from the very fundamentals of quantum computing. With the new field emerging, our future generations MUST learn more about this exciting topic! Whether a student is interested in meteorology, chemistry, computer science, or more, quantum computing has an application for whatever it may be. A variety of skills will be learned, and more importantly, NO prior coding experience is needed! Please join us for a week of fun qubits, and a special research project workshop to boost college applications and serve as a takeaway!

### **Counselor Bios:**

**Mr. Kevin Steele** spent 30 years in public education before he retired. He was a history and psychology teacher for 10 years before he spent 20 years as a high school counselor in Henrico, Virginia. During his tenure as a school counselor, Mr. Steele was able to assist hundreds of his students get admitted to the college/university at or near the top of their wish list. Whether it was finding an in-state college or an elite university across the country, Mr. Steele was determined to support his students all the way through the college application process. His coaching mentality of being a part of a team was formed through 28 years of coaching high school and middle school baseball. Mr. Steele is a qualified and enthusiastic counselor who is here to help your child through the daunting application process.

**Ms. Shannon Yun** received her Master's Degree in Education from George Mason University with a concentration in School Counseling in 2019. She is currently a graduate student at Johns Hopkins University in Clinical Mental Health. Before joining Curie Learning, she worked as a school counselor for the District of Columbia public schools. Prior to working in D.C., she spent three years working with Manassas Park City Schools in Virginia. She also completed one academic year as a school counseling intern for Fairfax County Public Schools. Ms. Yun is passionate about working with children, building their esteem, and supporting the accomplishment of their individual goals. She has provided counseling services for students of all ages including elementary, middle school, and high school students. As a counselor, she has developed and facilitated college and career lessons and guidance for hundreds of middle and high school students. She has also coached track and field for middle and high school students and enjoys basketball, travel, and spending time with family.
