

2025 Winter Course Schedule

For us, education is not just a business.
It is a passion and commitment to guide and support students to reach their optimum potential.

The Curie Learning program is designed for academically inclined students who are looking for a challenge. Here at Curie Learning, we believe that ongoing and future success of a child critically depends on laying a strong foundation in work ethic and high expectations. We have completed more than twelve years serving the region and strive to offer the best math and English programs available in the region for elementary school, middle school, and high school students.

Course Admissions Open Now

We are now accepting registrations for the 2025 winter courses. Any new level 1–8 or Algebra 1 student who is not continuing from the previous semester is required to complete a placement test before enrolling.

For more information regarding the placement test and registration information, please send an e-mail to curielearning@gmail.com.

DROP BOXES AT THE SOUTH RIDING CENTER

All registration forms must be completed online before a payment is made. There is a drop box on the porch of the South Riding Center. *You may drop off your registration form and/or check into a box any time. Please place your check in an envelope. Please include your child's first and last name and the class for which your child is registered.*

You may also mail your check to the South Riding Center via USPS (43250 Stonewall Pond St., South Riding, VA 20152).

*****REGISTRATIONS ARE NOT COMPLETED UNTIL THE FULL PAYMENT HAS BEEN ACCEPTED AND PROCESSED.*****

*****Current Students: Winter Schedule for Levels 1 – 6 remains the same as the previous semester*****

COURSES BY SUBJECT

- **Level 7 Program: pg. 3**
- **Math courses: pg. 4**
 - AP Precalculus pg. 4
 - High School Algebra pg. 4
 - High School Geometry pg. 4
 - Algebra 1 pg. 5
 - Level 3, 4, 5 Accelerated Math pg. 5–6
- **English courses: pg. 7**
 - Level 3, 4, 5, 6 Condensed English pg. 7–8
- **Test prep courses: pg. 9**
 - SAT/ACT pg. 9
 - PSAT pg. 9
- **STEM courses: pg. 10**
 - Intro to AI & Machine Learning pg. 10
- **Camps: pg. 11**
 - Robotics and Arduinos pg. 11
 - Intro to Quantum Computing pg. 11
- **College counseling for high school students: pg. 12–13**
- **Foundations of Organic Chemistry: pg. 9**

Curie Learning's Signature Level 7 Program including (TJ/AoS/AET)

This program incorporates high-level coursework in math, English, writing, science, and critical thinking. This program will prepare students not only to pass any test for admission into specialized programs like AOS/AET and TJ, but also to succeed and even thrive in high school and later in college.

Level 7 Program Fees (Approximate Monthly Amounts-- Semester 1: \$300; Semester 2/3: \$330; Semester 4: \$300)				
Semester 1: Aug. 23, 2024 - Dec. 22, 2024	General Cost \$1,195 [Approximately 4 classes/mo in math and English.]		Only English or Math \$725.00 *Only the once-per-week class will be included	
Semester 2: Jan. 6, 2025 - To June 22, 2025	General Semester Cost \$1,995.00 [Approximately 7 classes/mo; includes Alternate Sunday Writing & Science classes and monthly 3-on-1 writing tutoring]	8 Extra Sessions + \$350 (for New Students) These sessions cover math and English fundamentals taught in 1 st semester. Starts in February	Only English or Only Math (Online) \$875.00 *Only the once-per-week class will be included	Only English (Online) + Writing \$1,495.00 *Weekly English classes, Alternate Sunday Writing classes, and monthly 3-on-1 writing tutoring included
Semester 3: Jul. 7, 2025 - Dec 2025	General Semester Cost \$1,995.00 [Ranging from 8-11 classes/mo; includes Alternate Sunday Writing classes and monthly 3-on-1 writing tutoring]	<i>Including TJ/AOS/AET Extra Prep Classes</i> + \$300 *Exclusively for those enrolled in the General Semester classes	Only English or Only Math (Online) \$875.00 *Only the once-per-week class will be included	
Semester 4: Jan 2026-Jun 2026	General Semester Cost \$1,800.00 [Approximately 6 classes/mo.; includes Alternate Sunday Writing classes]		Only English or Only Math (Online) \$850.00 *Only the once-per-week class will be included	Only English (Online) + Writing \$1,495.00 *Weekly English classes and Alternate Sunday Writing classes included

1) Regular Weekly Classes (IN-PERSON or ONLINE):

Mondays	IN-PERSON: Herndon Center	6:30 pm – 8:45 pm EST
Mondays	ONLINE	6:30 pm – 8:45 pm EST
Tuesdays	IN-PERSON: Ashburn Center	6:30 pm – 8:45 pm EST
Wednesdays	IN-PERSON: South Riding Center	6:30 pm – 8:45 pm EST
Thursdays	IN-PERSON: South Riding Center	6:30 pm – 8:45 pm EST
Fridays	IN-PERSON: South Riding Center	6:30 pm – 8:45 pm EST
Saturdays	ONLINE	10:15 am – 12:30 pm EST
Saturdays	IN-PERSON: Herndon Center	10:15 am – 12:30 pm EST
Saturdays	IN-PERSON: South Riding Center	1:30 pm – 3:45 pm EST
Sundays	IN-PERSON: South Riding Center	10:00 am – 12:15 pm EST
Sundays	IN-PERSON: South Riding Center	12:30 pm – 2:45 pm EST

2) ALTERNATE SUNDAY WRITING, SCIENCE CLASSES (ONLINE):

*Those who pay the 'General Semester Cost' will automatically be enrolled in the Alternate Sunday classes in addition to the weekday/evening classes given above.

Group 1: Begins January 26th, 2025

Group 2: Begins February 2nd, 2025

Alternate Sundays: *5:30pm - 7:45 pm

Alternate Sundays: *5:30pm - 7:45 pm

Students will be assigned to one of these groups according to their regular class schedule

3) THREE-ON-ONE TUTORING (ONLINE): (starts in February)

*Those who pay the 'General Semester Cost' will automatically be enrolled in the 3-on-1 sessions.

*For 3-on-1 tutoring, you will receive an email with further information regarding how to sign up with a tutor.

To better prepare for writing persuasive essays and student information sheet (SIS), every student gets a 60 min. three-on-one appointment with a writing expert once per month.

Math Courses

For High School, Middle School, and Elementary School-Aged Students

AP Precalculus / Precalculus / TJ Math 4

This class is intended to prepare students for the AP Precalculus Test in May 2025. This course gives the students a head start with the concepts taught in Precalculus course, and helps them gain a thorough understanding of Pre-Calculus concepts necessary for success in higher level math courses like AP Calculus AB/BC. Students who are currently enrolled in Precalculus or Algebra 2 in school can take this course. Our program will help prepare students for this high-school-credit math class (which affects their high school GPA). Not only will we give the students a head start with the concepts taught in any Pre-Calculus course, we will help them to transition into an advanced Pre-Calculus course by expecting a certain degree of rigor and independent learning skills. Also, gaining a thorough understanding of Pre-Calculus concepts is necessary to prepare for higher level math courses like AP Calculus, Calculus AB/BC, and AP Statistics.

TBA

One-time payment of: **\$1,195**

 [CLICK HERE FOR THE PRECALCULUS ENROLLMENT FORM](#) 

High School Algebra 2

This class is intended for students who are presently placed in advanced math in school and planning to take Algebra 2 as their next class in school (the following school year or summer).

TBA

One-time payment of: **\$1,250**

 [CLICK HERE FOR THE ALGEBRA 2 ENROLLMENT FORM](#) 

High School Geometry

This class is intended for students who are presently placed in advanced math in school and planning to take HS Geometry as their next class in school (the following school year or summer).

Sundays ONLINE ONLY 10:00 am – 12:00 pm [Instructor: Ms. Nora Tran]

Feb. 2nd, 2025 – Jun. 15th, 2025

One-time payment of: **\$1,250**

 [CLICK HERE FOR THE GEOMETRY ENROLLMENT FORM](#) 

Algebra 1 (Grades 6-8)

This class is intended for students who are presently placed in advanced math in school and planning to take Algebra 1 as their next class in school (the following school year or summer). This is the same course as our Level 6 math course; therefore, this class is intended for students who are new to Curie Learning and who wish to join our regular program midway through the school year. Instead of students joining the already existing ten-month program midway through, we will start at the beginning and will cover most of the topics of the regular ten-month course.

\$250 discount applied when a student registers for this course and a condensed English course.

Students must take the placement test before enrolling in this course.

Tuesdays South Riding Center 6:30 – 8:30 pm [Instructor: Ms. Nora Tran]
OR

Fridays Hybrid (Ashburn/Online) 6:30 – 8:30 pm [Instructor: Ms. Urmila Seshadri]

One-time payment of: **\$1,300**

Feb. 4th, 2025 – Jun. 13th, 2025

STEM Courses

Foundations of Organic Chemistry

12th Graders & College Freshmen

This class is intended to for college Freshmen and High School Seniors to gain foundational knowledge in Organic Chemistry, which will help them to be successful in both Organic Chemistry 1 and Organic Chemistry 2 courses in college. Many students struggle in Organic Chemistry courses in college and eventually drop their plans of pursuing medicine. To avoid this potential problem we created this course to give foundational knowledge in Organic Chemistry before students take Organic Chemistry in college. This ONLINE class is scheduled during winter break (December 26, 2024 to January 9, 2025, from 4:00 pm to 6:00 pm). The class meets for 12 days between December 26 and January 9 with a break on new-year eve and new-year day.

Introduction to AI & Machine Learning Course

7th Graders & Up

This course is run by an organization created by high school students for younger students! This course provides a tailored introduction to artificial intelligence and machine learning, two of the fastest growing and cutting-edge areas of research in the world today. Students will learn the fundamentals of programming for data science and AI development. They will apply their skills in developing a specialized AI project that they can include in their résumés. Finally, they will dive into machine learning concepts and develop an outline for a research project; top projects will be invited to a research symposium to present their idea to an audience for prizes!

Office Hours until August 24th

South Riding Center:

Monday through Friday 6:30 pm to 8:30 pm
Saturday 1 pm – 3 pm
Sunday 10 am – 1 pm

Herndon Center:

Monday & Wednesday 6:30-8:30pm
Saturday 10:30am – 12pm

Ashburn Center:

Monday through Friday 6:30 pm to 8:30 pm

DROP BOXES AT THE SOUTH RIDING CENTER

All registration forms must be completed online before a payment is made. There is a drop box on the porch of the South Riding Center.

You may drop off your check into the South Riding drop box any time. Please place your check in an envelope. Please include your child's first and last name and the class for which your child is registered.

You may also mail your check to the Curie Learning South Riding Center via USPS (43250 Stonewall Pond St., South Riding, VA 20152).

**REGISTRATIONS ARE NOT COMPLETED
UNTIL THE FULL PAYMENT HAS BEEN
ACCEPTED AND PROCESSED.**

STEM CAMPS

CAMP: Robotics & Arduinos– (In-Person) 5th to 8th Graders

During this **four-day camp**, students will use hands-on robotics kits along with our experienced robotics instructors to learn the intricacies of Arduinos and robotics. Our team of instructors will be walking students through the basics of assembling the robotics kit to programming it to follow a line, detect walls, and many other projects throughout the week. Students will learn the basics of C++ and Arduino programming, and will gain experience with assembling and testing a robot kit.

*Robotics kit is included; value of \$80.00.

[**CLICK HERE FOR THE CAMP ITINERARY**](#)

IN-PERSON at South Riding center
TBA

[**CLICK HERE FOR THE ROBOTICS CAMP ENROLLMENT FORM**](#)

CAMP: Intro to Quantum Computing – (In-Person) 5th to 8th Graders

This camp is run by qMe, an organization created by high school students for younger students! Along with the Quantum Computing course (that includes the same topics/curriculum), we have decided to run the course in a week-long camp format as well. This way, students will have the opportunity to work on the activities while receiving more support and supervision. In this in-person camp, students will be taking part in day-to-day coding activities, starting from the very fundamentals of quantum computing. With the new field emerging, our future generations **MUST** learn more about this exciting topic! Whether a student is interested in meteorology, chemistry, computer science, or more, quantum computing has an application for whatever it may be. A variety of skills will be learned, and more importantly, **NO** prior coding experience is needed! Please join us for a week of fun qubits, and a special research project workshop to boost college applications and serve as a takeaway!

College and Career Counseling

for High School Students

(for 8th - 12th grade students)

An online individualized counseling program available to all high school students across the United States!

Upperclassman Counseling Packages (for 11th and 12th graders)

The counselor will assist students with their college application materials, helping them stand out in a crowded field and successfully meet application deadlines.

Package Includes:

2 counseling sessions per month

- Twelve-month package (24 sessions): \$2500
- Eight-month package (16 sessions): \$1800
- Six-month package (12 sessions): \$1500
- Four-month package (8 sessions): \$1000

Underclassman Counseling Packages (for 8th, 9th, and 10th graders)

The counselor will help students create an academic plan to prepare for their college and career goals. This may include finding work and service opportunities or choosing the right high school classes that will prepare for their desired college programs.

Package includes:

1 counseling session per month

- Twelve-month package (12 sessions): \$1500
- Eight-month package (8 sessions): \$1000
- Six-month package (6 sessions): \$750
- Four-month package (4 sessions): \$500

Before registering, we recommend that you contact the college counseling program coordinator, Ms. Erin Price, at collegecounseling.curiellc@gmail.com for advice on which package would be the best fit for your child.

****Do not contact the regular administrative line, as they may not be able to best answer your questions. Please allow us 3 business days to respond.***

All sessions will be held through Zoom on evenings or weekends, based on the counselor's schedule.

You may join the program at any time. However, your first appointment will be held the following month. (For example, if you join the program in mid-January, your first appointment will be in February.) You must register and pay by the 15th of the month to be guaranteed an appointment for the following month.

Curie Learning is equipped to offer most of the classes and activities college counselors recommend, such as the Writing for College and Career Preparation class, SAT/ACT coaching, AP high school courses in math and science, and volunteer opportunities through Curie Social Services!

Counselor Bios:

Mr. Kevin Steele spent 30 years in public education before he retired. He was a history and psychology teacher for 10 years before he spent 20 years as a high school counselor in Henrico, Virginia. During his tenure as a school counselor, Mr. Steele was able to assist hundreds of his students get admitted to the college/university at or near the top of their wish list. Whether it was finding an in-state college or an elite university across the country, Mr. Steele was determined to support his students all the way through the college application process. His coaching mentality of being a part of a team was formed through 28 years of coaching high school and middle school baseball. Mr. Steele is a qualified and enthusiastic counselor who is here to help your child through the daunting application process.

Mr. Carlos Williams has 10+ years of experience supporting youth with workforce development and pursuing educational opportunities. Carlos is from Dunn, North Carolina and has a bachelor's degree in psychology from the University of North Carolina at Charlotte, a master's degree in educational psychology from the University of Arizona, and is pursuing a doctoral degree in Educational Policy and Leadership from the University of Maryland, College Park. In his roles as an Academic and Career Advisor at various institutions, Carlos has supported diverse groups of students with college and career access, navigating the application process for applying to professional schools, and crafting personal statements to accompany their college applications. Carlos takes a holistic approach to supporting students to ensure success in their academic endeavors and is excited to serve as your college counselor to help you reach your academic goals.
