

Curie Learning

2025-2026 Academic Year Schedule

For us, education is not just a business.
It is a passion and commitment to guide and support students to reach their optimum potential.

The Curie Learning program is designed for academically inclined students who need a challenge. Ongoing and future success of a child depends on laying a strong foundation in math and English during elementary and middle school years. We have completed **fifteen** years serving the region and strive to offer the best math and English programs available for elementary school, middle school, and high school students.

We are now accepting registrations for the 2025–2026 academic year for students ages 4–13. We also offer College Counseling, SAT/ACT coaching and math, science, and writing classes for high schoolers, and many other courses for students of all levels. Any new grade 3–8 student who is not continuing from the past school year is required to complete a placement exam before enrolling.

For more information about the placement exam and registration information, please e-mail curielearning@gmail.com.

STEM COURSES

ROBOTICS BOOT CAMP

6th – 8th Grade Students

Course Total Hours: 6 Hours

FIRST Tech Challenge Robotics Team & Metal Magic Inc.

This online 4 week-course is run by a FIRST Tech Challenge Robotics Team, Metal Magic. In this course, students will learn some of the basics of robotics and STEM topics. Students will learn many skills including, basic Python programming, CAD, learn about hardware parts and actuators, and marketing in the context of robotics competitions. At the end of the course, students will be provided an opportunity to attend an in-person fun open event where they can drive the robot, meet the team, ask questions, and learn more about opportunities in robotics. This course provides a great exposure to the fun and interesting opportunities in robotics and STEM to spark further interest in students.

Introduction to AI & Machine Learning Course

7th Graders & UP

Course Total Hours: 14 Hours

This Course is run by an organization created by high school students for younger students!

This course provides a tailored introduction to artificial intelligence and machine learning, two of the fastest growing and cutting-edge areas of research in the world today. Students will learn the fundamentals of programming for data science and AI development. They will apply their skills in developing a specialized AI project that they can include in their résumés. Finally, they will dive into machine learning concepts and develop an outline for a research project; top projects will be invited to a research symposium to present their idea to an audience for prizes!

[**CLICK HERE FOR THE COURSE CURRICULUM**](#)

\$150 instead of \$195 (for Curie current students enrolled for 2025-2026 Academic Year program)

\$275 (for Non Curie students)

ONLINE

Sundays from 3:30 pm – 5:00 pm

We are offering the following options:

Course 1: August 24 - October 19; Symposium on Sat, Oct 25

Course 2: October 26 - January 11; Symposium on Sat, Jan 17

Course 3: January 18 - March 15; Symposium on Sat, March 21

Course 4: March 22 – May 31; Symposium on Sat, June 6

Quantum Computing Course (qMe)

7th Grade & UP

Course Total Hours: 20 Hours

This ONLINE course is run by qMe, an organization created by high school students for younger students! Welcome to qMe! We are two college students with Aditya at University of Maryland CS and Akshita attending University of Virginia CS. Both of us have been exposed to quantum computing through our research and various endeavors at both schools. Both have attended MIT conferences to present their quantum computing research and continue to expand their knowledge in college. One regret we often discuss is how we were initially scared to get into quantum computing and wasted many years we could have spent learning, as there is a stigma that there needs to be a high level of background knowledge to succeed in such an advanced field as a high schooler. Therefore, we decided to create our own organization to educate those who have an interest. We also want to give students a chance to speak on a platform about quantum, which is why this course goes hand-in-hand with our blog in which students will be able to showcase what they learn in quantum through articles, something we believe is important for sourcing.

qMe is a one-of-a-kind organization aimed to teach younger students about the rapidly growing field of quantum computing and its subsets with the aim of making quantum computing accessible to students of all backgrounds. This course tends to conventionally start at the university level, but by igniting interests of the young demographic towards the field early, we can shape the role our future workforce will play in this important field, which is estimated to rapidly grow in the next decade. Students will learn higher level math concepts, programming concepts, physics concepts, etc. Not only will students learn but they will perform hands-on tasks such as running simulations and writing algorithms on IBM Quantum Composer. This fully online course will not only introduce students to the quantum computing world, but teach them concepts that are critical, with no prerequisite.

We have taught over **200** students in just two years, have been featured on **NBC4 PrimeTime**, and have made over \$30,000, with over half being donated to Ugandan healthcare initiatives as well as a women's orphanage in Hyderabad. Above all, we have expanded to teaching college students in India, with our newest pilot program **teaching 4th year engineering students at JNTU-K**. Many of our students go on to TJ, AOS, and AET as well as continue their quantum research even with college collaborations. **If you want your child to stand out, quantum computing is the place to be. NO prior experience needed!**

ACSL Elementary Coaching Course

Elementary Division: 3 – 6 Graders

This course is run by a high school student(Junior) for younger students!

Students in this course will explore key computer science concepts like number systems, Boolean algebra, and graph theory, all aligned with the ACSL Elementary Division standards. With four official ACSL contests throughout the year, the course will sharpen students' problem-solving abilities as they tackle the theoretical aspects of these topics. By the end, they will have developed a solid foundation in computer science, setting the stage for future learning and success in the field!

Topics covered:

Computer Number System, Prefix/Infix/Postfix Notation, Boolean Algebra & Graph Theory

\$325 instead of \$375 (for Curie current students enrolled for 2025-2026 Academic Year program)
\$425 (for Non-Curie students)

ONLINE / IN-PERSON at South Riding Center

Sundays from 5:30 pm – 7:00 pm

October 12th, 2025 – May 3rd, 2026

[CLICK HERE FOR THE ACSL Coaching Course ENROLLMENT FORM](#)

ACSL Classroom Division Coaching Course

Classroom Division: 7 – 9 Graders

This course is run by a high school student(Junior) for younger students!

Students in this course will explore key computer science concepts like number systems, Boolean algebra, and graph theory, all aligned with the ACSL Classroom Division standards. With four official ACSL contests throughout the year, the course will sharpen students' problem-solving abilities as they tackle the theoretical aspects of these topics. By the end, they will have developed a solid foundation in computer science, setting the stage for future learning and success in the field!

Topics covered:

Computer Number System, Recursive Functions, What Does this Program Do? (Everything), Prefix / Infix / Postfix Notation, Bit-String Flicking, LISP, Boolean Algebra, FSAs and Regular Expressions, Data Structures, Graph Theory, Digital Electronics, Assembly Language

\$395 instead of \$450 (for Curie current students enrolled for 2025-2026 Academic Year program)
\$495 (for Non-Curie students)

ONLINE / IN-PERSON at South Riding Center

Sundays from 3:00 pm – 5:00 pm

Curie Learning's Signature

Level 7 Program - Rising 7th Grade

The Level 7/8 program incorporates high-level coursework in math, English, writing, science, and critical thinking. This program will prepare students not only to pass any test for admission into specialized programs like AOS/AET and TJ, but also to succeed and even thrive in high school and later in college.

Level 7 Program Fees (Approximate Monthly Amounts-- Semester 1: \$300; Semester 2/3: \$330; Semester 4: \$300)				
Semester 1: Aug. 23, 2025 - Dec. 22, 2025	General Cost \$1,250 [Approximately 4 classes/mo in math and English.]		Only English or Only Math (Online) \$775.00 *Only the once-per-week class will be included	
Semester 2: Jan. 6, 2026 - To June 22, 2026	General Semester Cost \$1,995.00 [Approximately 7 classes/mo; includes Alternate Sunday Writing & Science classes and monthly 3-on-1 writing tutoring]	8 Extra Sessions + \$350 (for New Students)	Only English or Only Math (Online) \$875.00 *Only the once-per-week class will be included	Only Weekly English + Writing + (3 on 1) \$1,495.00 *Weekly English classes, Alternate Sunday Writing classes, and monthly 3-on-1 writing tutoring included
Semester 3: Jul. 7, 2026 - Dec 2026	General Semester Cost \$1,995.00 [Ranging from 8-11 classes/mo; includes Alternate Sunday Writing classes and monthly 3-on-1 writing tutoring]	<i>Including TJ/AOS/AET Extra Prep Classes</i> + \$350 *Exclusively for those enrolled in the General Semester classes	Only English or Only Math (Online) \$875.00 *Only the once-per-week class will be included	
Semester 4: Jan 2027-Jun 2027	General Semester Cost \$1,800.00 [Approximately 6 classes/mo.; includes Alternate Sunday Writing classes]		Only English or Only Math (Online) \$850.00 *Only the once-per-week class will be included	Only English (Online) + Writing \$1,495.00 *Weekly English classes and Alternate Sunday Writing classes included

Mondays	IN-PERSON: South Riding Center MAXIMUM CAP SIZE: 35 students/ Math Teacher: Ms. Kristen Herdman / English Teacher: Ms. Williams	6:15 pm – 8:30 pm

Math Instructional Live Sessions (Levels 1-6) & Online Monthly English Tutoring (Levels 5-7)

Math & English UPDATED Class Structure:

Math and English classes are now **live - instruction based!** Students will **NOT** be required to prepare for the lesson before class as lessons will be instructed **in class** by the teacher!

Students will be assigned **weekly** homework for each lesson. Parents will be required to use the answer keys posted on the Parent's Google Classroom to correct their child's homework. Students are expected to re-attempt their homework mistakes before submission. Homework, quizzes, and test scores will be posted on the Student's Google Classroom.

**** Lesson instructional videos are posted on the Student's Google Classroom for students to watch after class as review or if they miss a class. Any homework questions can be asked during the next class. ****

**** There are NO make-up classes offered! ****

Online Monthly English Tutoring (for Levels 5 & 6):

Levels 5 & 6 English students will be assigned approximately one essay every month. Students will have the opportunity to meet privately with their English teachers for 20 minutes each month (online through Zoom) to discuss their submitted rough or final drafts of their most recent essay. Students will be expected to take notes during the session, take the teacher's suggestions, and make the appropriate changes to their essays.

Meeting days and times are in the evenings and weekend based on the teacher's schedule; they will be held on a separate day/time than the regular week class. A sign-up sheet will be released to students via Google Classroom. Each month, students will need to sign up ahead of time for their individual time slot.

**Students and parents will be provided with the sign-up sheet for the next month by the 25th of the previous month. You must sign up by the 1st day of the month to be guaranteed an appointment. Students and parents can switch their slot up until 24 hours before the scheduled meeting.*

**Only one time slot will be reserved per student each month. If a student misses a session, he or she cannot sign up for another session; however, he or she may join Zoom if the teacher has an open slot. Remember that the essay tutoring is a complementary bonus service; if a student misses a session, he or she can still read the teacher's comments on Google Classroom.*

How to Read the Schedule:

This is the day that students will meet for their classes (math and English classes).

Mondays

This is the time that students will meet for their regular weekly classes (math and English classes).

6:30 pm – 8:45 pm

IN-PERSON: South Riding Center

*** MAXIMUM CAP SIZE: 24 students

Any section that has reached maximum capacity will be closed for new enrollments, with no exceptions.

Level 6: Math and English Supplementary Instruction

Level 6 Fees (Approximately \$310/mo. for both (MATH & English weekly 2.5 hours)				
Semester 1: Sept. 3, 2025 To Jan. 2026	In Person \$1,550	Online \$1,500.00	Only Math *ONLINE or Herndon \$950.00	Only English *ONLINE or Herndon \$950.00
Semester 2: Feb. 2026 To Jun. 15, 2026	In Person \$1,550	Online \$1,500.00	Only Math *ONLINE or Herndon \$950.00	Only English *ONLINE or Herndon \$950.00

Mondays	IN-PERSON: South Riding Center *** MAXIMUM CAP SIZE: 24 students	6:15 pm – 8:45 pm
Mondays	IN-PERSON: Ashburn Center *** MAXIMUM CAP SIZE: 24 students	6:15 pm – 8:45 pm
Wednesdays	IN-PERSON: Ashburn Center *** MAXIMUM CAP SIZE: 24 students	6:15 pm – 8:45 pm
Wednesdays	IN-PERSON: Herndon Center *** MAXIMUM CAP SIZE: 24 students	6:15 pm – 8:45 pm
Wednesdays	ONLINE *** MAXIMUM CAP SIZE: 24 students	6:15 pm – 8:45 pm EST
Thursdays	IN-PERSON: South Riding Center *** MAXIMUM CAP SIZE: 24 students	6:00 pm – 8:30 pm
Thursdays	ONLINE *** MAXIMUM CAP SIZE: 24 students	6:15 pm – 8:45 pm EST
Fridays	IN-PERSON: South Riding Center *** MAXIMUM CAP SIZE: 24 students	6:15 pm – 8:45 pm
Saturdays	ONLINE *** MAXIMUM CAP SIZE: 24 students	10:00 – 12:30 pm EST
Saturdays	IN-PERSON: South Riding Center *** MAXIMUM CAP SIZE: 24 students	11:30 am – 2:00 pm

Math & English UPDATED Class Structure for 2025-2026 Academic Year!!

*Math & English classes are now **LIVE INSTRUCTION BASED**.

*Students do **NOT** need to watch the lesson instructional video before class as lessons will be taught in class.
(See page 13 & the parents' guide for more details)

Math 7 Honors, MATH SOL 7 & iReady EXAM PREPATORY CLASSES (ONLINE/IN-PERSON)
\$250 instead of \$350 (for Curie current students enrolled for 2025-2026 Academic Year program)
\$500 (for Non Curie students)

Extra classes will be held to help prepare our current students for their upcoming IOWA, iReady, MATH SOL 7 exams.
 (This is a \$500 value.) The book will be a separate purchase.

There are certain experiences that, when introduced early on, can greatly impact a child's future success and cognitive maturity. Experiences such as learning in a group setting, learning social skills, developing good study habits, and adhering to daily routines promote the structure and discipline necessary for students to advance with ease. It is never too early to start these constructive habits; with this in mind, Curie Learning is excited to introduce our new Levels A/B program for students ages 4-6! Our goals for this early education program are not only to teach students reading, writing, and math skills in an engaging environment, but to provide guidance to parents on how to promote these habits in the home as well. It takes a village to raise a child, and we at Curie Learning are excited to help our community with bringing up our little ones.

High School

SAT Prep/ ACT Prep (Grades 10 – 12)

Sept. 14, 2025 – Feb. 22, 2026

This **6-Month course** is intended to prepare students for taking both math and English parts of the SAT/ PSAT /ACT test. Students preparing for the PSAT are also welcome to join, as the topics tested for the SAT and PSAT are mostly identical.

Sundays

3:00 pm – 5:00 pm EST

One-time Fee: \$1,695

- **Math: HYBRID: ONLINE OR SOUTH RIDING** [Dr. Rao Mulpuri]
- **English: ONLINE ONLY** [Mr. Michael Hantman]

English Only or Math Only (Every Other Sunday): \$995

**The purchase of a book may be required*

[CLICK HERE FOR THE SAT/PSAT/ACT ENROLLMENT FORM](#)

PSAT Prep (Grades 8 – 9)

Sept. 14, 2025 – Feb. 22, 2026

This **6-Month course** is intended for students who want to apply in the 10th grade for 11th grade admission at AET or in the 9th grade for 10th grade admission at MATA.

***Sundays**

3:00 pm – 5:00 pm EST

One-time Fee: \$1,695

- **Math: HYBRID: ONLINE OR SOUTH RIDING** [Instructor: Dr. Rao]
- **English: ONLINE ONLY** [Instructor: Mr. Michael Hantman]

English Only or Math Only (Every Other Sunday): \$995

**The purchase of a book may be required*

[CLICK HERE FOR THE SAT/PSAT/ACT ENROLLMENT FORM](#)

AP Precalculus AB and BC/Precalculus/TJ Math 4

Sept. 14, 2025 – Jan. 25, 2026

This class is intended to prepare students for taking high school Precalculus/AP Precalculus AB/BC during the upcoming academic year. In the day schools, students have the option to take Pre-Calculus after completing Algebra 2.

Our program will help prepare students for this high school credit math class (which affects their high school GPA). Not only will we give the students a head start with the concepts taught in any Pre-Calculus course, but we will also help them to transition into an advanced Pre-Calculus course necessary to prepare for higher level math courses like AP Calculus, Calculus AB/BC, and AP Statistics.

Note: Precalculus BC includes all topics in Precalculus AB.

***Sundays**

ONLINE

5:00 - 6:30 pm EST

One-time Fee: \$1,250

*Tentative: Availability will be based on enrollment numbers.

****The remaining topics will be covered in February and March for an additional fee of \$300.**

[CLICK HERE FOR THE AP CALCULUS ENROLLMENT FORM](#)

Algebra II

Sept. 14, 2025 – Week of Jan. 25, 2026

This class is intended for students who will be taking Algebra 2 in the coming academic school year or planning to take Algebra 2 as their next class in school (next year or semester). In the day schools, the progression of math courses is the following order: first Algebra 1, then Geometry, then Algebra 2 (or Algebra 2/Trigonometry). Algebra 2 is a course required for a high school diploma and which most students take as 8th, 9th, 10th or 11th graders (depending upon their level). Our program will help prepare students for this high-school-credit math class (which affects their high school GPA). Not only will we give the students a head-start with the concepts taught in any Algebra 2 course, we will help them to transition into an advanced Algebra 2 course by expecting a certain degree of rigor and independent learning skills. Also, gaining a thorough understanding of Algebra 2 concepts is necessary for scoring well on the SAT/ACT later on; many colleges and universities are again requiring these scores for student application. If a student is joining the AET Freshman course for the upcoming school year, it is recommended that the student register for our Algebra 2 course. This is the material that will best prepare students for the AET Freshman Math program.

5 months course Fee: \$1250 [9/14/2025 – 1/25/2026]

***Sundays ONLINE / IN-PERSON (South-Riding) 9:30 - 11:30 am EST**

*Tentative: Availability will be based on enrollment numbers.

[CLICK HERE FOR THE ALGEBRA 2 ENROLLMENT FORM](#)

High School Geometry

Week of Sept. 14, 2025 – Week of Jan. 25, 2026

The curriculum of this class will include that of Geometry, a high school credit course. This class is intended for students who are on track to take Geometry in their current or following year in their day schools. Geometry is the class that follows Algebra 1 the previous year. Whether students are taking Geometry as a middle school or high school student, our program will help prepare them for this high school-credit math class (which affects their high school GPA). Not only will we give the students a head start with the concepts taught in any Geometry course, we will help them to transition into an advanced Geometry course by expecting a certain degree of rigor and independent learning skills. Also, gaining a thorough understanding of Geometry concepts is necessary for scoring well on the SAT/ACT later on; many colleges and universities are again requiring these scores for student application.

5 months course Fee: \$1250 [9/14/2025 – 1/25/2026]

*** ONLINE**

Sunday 9:30 am – 11:30 am

*Tentative: Availability will be based on enrollment numbers.

[CLICK HERE FOR THE GEOMETRY ENROLLMENT FORM](#)

Algebra I

Sept. 9, 2024 –Jan. 27, 2025

The curriculum of this class will include that of Algebra 1, a high school credit course. This class is intended for students who are in advanced math now in school, who are on track to take Algebra I in their current or following year in their day schools, and/or who plan to appear for TJ/AOS/AET entrance exams in their 8th grade. Whether students are taking Algebra 1 as a seventh, eighth, or ninth grader in their day schools, our program will help prepare students for this high school-credit math class (which affects their high school GPA). This course give the students a head start with the Algebra 1 concepts, also helping them to transition into an advanced high school level course by expecting a certain degree of rigor and independent learning skills. Also, gaining a thorough understanding of Algebra 1 concepts is necessary for scoring well on the SAT/ACT. Many colleges and universities are again requiring these scores for student application. It is difficult to handle Algebra 2, Precalculus and other higher level courses without a solid foundation in Algebra1.

[7th grade students who register for our Signature Level 7 program in January will receive a \$300 discount.]

5 months course Fee: **\$1300** [9/9/2025 – 1/27/2026]

Tuesdays SOUTH RIDING CENTER 6:30 pm – 8:30 pm One-time Fee: \$1,300

***Fridays HYBRID: ASHBURN/ONLINE 6:30 pm – 8:30 pm EST One-time Fee: \$1,300**

*Tentative: Availability will be based on enrollment numbers.

Please note that joining online means that you will need to print the packets from home.

College & Career Counseling

for High School Students

(for 9th - 12th grade students)

An online individualized counseling program available to all high school students across the United States!

[*Click here for an information video*](#)

Upperclassman Counselling Packages (for 12th graders)

The counselor will assist students with their college application materials, helping them stand out in a crowded field and successfully meet application deadlines.

Package Includes: 2 counseling sessions per month

Payment Options Include:

- Twelve-month package (24 sessions): \$2800
- Eight-month package (16 sessions): \$2000
- Four-month package (8 sessions): \$1200

Underclassman Counseling Packages (for 9th, 10th and 11th Graders)

Counselors will help students create an academic plan to prepare for their college and career goals. This may include finding work and service opportunities or choosing the right high school classes that will prepare for their desired college programs.

Package includes: 1 counseling session per month

- Twelve-month package (12 sessions): \$1500
- Eight-month package (8 sessions): \$1000

All-Inclusive Package (for 9th graders only):

College Prep All-Inclusive Package for Four Years (40 months): \$12,000

Package includes:

- 1 counseling session a month for 40 months
- SAT/ACT Preparation class
- High School Writing Fundamentals and Writing for College and Career Preparation classes
- Up to 3 other semester-long high school level classes of your choice

For any questions about this program, please contact

collegecounseling.curiellc@gmail.com

**Do not contact the regular administrative line, as they may not be able to best answer your questions. Please allow us 3 business days to respond.*

College and Career Counseling

SEE PREVIOUS PAGE FOR MORE INFORMATION

All sessions will be held through Zoom on evenings or weekends. You may join the program at any time. However, your first appointment will be held the month following enrollment. (For example, if you join the program in mid-September, your first appointment will be in October.) You must register and pay by the 15th of the month to be guaranteed an appointment for the following month.

Curie Learning is equipped to offer most of the classes and activities college counselors recommend, such as the Writing for College and Career Preparation class, SAT/ACT coaching, AP high school courses in math and science, and volunteer opportunities through Curie Social Services!

Counselor Bios:

Mr. Kevin Steele spent 30 years in public education before he retired. He was a history and psychology teacher for 10 years before he spent 20 years as a high school counselor in Henrico, Virginia. During his tenure as a school counselor, Mr. Steele was able to assist hundreds of his students get admitted to the college/university at or near the top of their wish list. Whether it was finding an in-state college or an elite university across the country, Mr. Steele was determined to support his students all the way through the college application process. His coaching mentality of being a part of a team was formed through 28 years of coaching high school and middle school baseball. Mr. Steele is a qualified and enthusiastic counselor who is here to help your child through the daunting application process.

Mr. Carlos Williams has 10+ years of experience supporting youth with workforce development and pursuing educational opportunities. Carlos is from Dunn, North Carolina and has a Bachelor's Degree in Psychology from the University of North Carolina at Charlotte, a Master's Degree in Educational Psychology from the University of Arizona, and is pursuing a Doctoral Degree in Educational Policy and Leadership from the University of Maryland, College Park. In his roles as an Academic and Career Advisor at various institutions, Carlos has supported diverse groups of students with college and career access, navigating the application process for applying to professional schools, and crafting personal statements to accompany their college applications. Carlos takes a holistic approach to supporting students to ensure success in their academic endeavors and is excited to serve as your college counselor to help you reach your academic goals.

Why Enroll Your Child in High School Writing Courses?

Writing, reading comprehension, critical thinking, and communication skills are crucial for success on standardized tests, all high school and college classes, and all careers.

High School Writing Fundamentals

For Rising Grades 9–12

10 months course **\$2000** [9/16/2025 – 6/9/2026]

* **Tuesdays** **ONLINE**

6:00 - 7:15 pm EST

*Tentative: Availability will be based on enrollment numbers.

*Minimum capsiz: 5 / Maximum capsiz: 10

[Click here for an information video](#)

[CLICK HERE FOR THE HS WRITING FUNDAMENTALS ENROLLMENT FORM](#)

A two-semester course providing intensive instruction and practice in high school level writing, including persuasive essays, rhetorical analysis essays, short stories, magazine articles, and literary analysis essays.

Mastering writing skills is crucial for student success in high school and college. Students will improve their writing through weekly feedback from the teacher and their peers.

This is a small-group class, structured similarly to a writing group. It is a discussion-based course, not lecture-based. Students are expected to bring their writing assignment each week to share with the class. They are expected to give and accept feedback from the teacher and their peers. This interactive class structure provides an ideal environment for writing improvement.

Why Join High School Writing Fundamentals?

- Students receive personalized feedback on their writing every week from an experienced writing teacher!
- The writing skills learned will give students a head start on high school and college writing assignments.
- Students may improve their grades in English and writing classes, and other classes as well, since almost every class involves writing!
- Students get a chance to discuss writing and ask questions in an interactive, small-group learning environment, a more effective way to learn writing than in a large class.

A one-semester course providing intensive instruction and practice in writing college application essays, resumes, cover letters, and business communications.

Students will write and polish several of the Common Application essays, which are used in many universities' application processes. They will also write, revise, and polish resumes, cover letters, and business emails. Students will improve their writing through weekly feedback from the teacher and their peers.

This is a small-group class, structured similarly to a writing group. It is a discussion-based course, not lecture-based. Students are expected to bring their writing assignment each week to share with the class. They are expected to give and accept feedback from the teacher and their peers. This interactive class structure provides an ideal environment for writing improvement.

Why Join Writing for College and Career Preparation?

- Students receive personalized feedback on their writing every week from an experienced writing teacher!
- Students will prepare and polish several essays that they can use to apply for college, potentially leading to greater rates of college acceptance and scholarships.
- Students will receive advice that will make the college and job application process easier to navigate.
- The writing skills learned will give students a head start on high school and college writing assignments.
- Students may improve their grades in English and writing classes, and other classes as well, since almost every class involves writing!
- Students get a chance to discuss writing and ask questions in an interactive, small-group learning environment, a more effective way to learn writing than in a large class.
