

## High School Geometry

- ◇ The curriculum of this class will include that of Geometry, a high school credit course.
- ◇ This class is intended for students who are on track to take Geometry in their current or following year in their day schools. Geometry is the class that follows Algebra 1 the previous year.
- ◇ Our program will help prepare for this high school-credit math class (which affects their high school GPA).
- ◇ This course will give the students a head start with the concepts taught in any Geometry course, also transition into an advanced Geometry course by expecting a certain degree of rigor and independent learning skills.
- ◇ Gaining a thorough understanding of Geometry concepts is necessary for scoring well on the SAT/ACT later on; many colleges and universities are again requiring these scores for student application.

**\$270/month**

Payment will be collected  
as one time payment

**Sept. 13, 2026 – Jan. 25, 2027**

**Sundays 9:30 am – 11:30 am EST**

*\*Tentative: Availability will be based on enrollment numbers.*
