About Us

The Intelligent Nano Current System delivers ultra-precise, trillionth-of-an-amp electrical signals that communicate directly with your cells, guiding them back to their optimal function.

By using real-time biofeedback, it pinpoints areas of imbalance, reduces inflammation at the source, and restores healthy nerve and tissue communication.

This gentle, non-invasive process jumpstarts the body's natural repair systems, accelerating recovery and improving overall function without drugs or surgery.

Life Impact Score

The Life Impact Score shows how much a treatment truly improves your everyday life — from reducing pain to restoring energy and movement. It's a simple way to measure what really matters: feeling better, faster, and for longer.

How Our Technology Works

1 Unhealthy Cell

An unhealthy cell struggles to bring in nutrients and push out toxins, leaving it imbalanced and inflamed. This dysfunction can create pain, slow healing, and negatively impact overall wellbeing and long-term health.

2 Identifying the Root Cause

The technology reads the electrical imbalances at each cell gate, identifying whether toxins, heavy metals, bacteria, or other stressors are locking the gates and disrupting the cell's natural function.

3 Targeted Cellular Restoration

The AI-guided system uses the information from your cells to deliver a precise, tailored therapy that unlocks the gates, restores balance, and recharges the cell back to its optimal frequency.

4 Healthy, Charged Cell

Once the cell regains its electrical balance and charge, it can replicate in a healthy, accelerated way—allowing tissues and organs to repair, regulate, and restore overall health in the treated area.

Client Testimonials

Had sciatica problems going down my left leg. I have been to Washington university in St. Louis MO. Had steroid shots don't help. Found out about HALOE WELLNESS and flew out after week of treatments pain was gone. Highly recommend!

Just amazing. From can't walk, can't do anything but lay on a hard floor to golfing in 3 weeks.

I was scheduled for shoulder surgery at year's end. My shoulder was a mess. After the seven treatments, I cancelled the surgery (and saved 25K). My shoulder pain is gone. I work out in the gym four times a week and my life is changed.

I came in with inflammation in my heel and Achilles. I tried stretches and rest, but Haloe helped me very quickly. I'm now at 100% with no inflammation or pain, and back to my regular fitness activities. 5 stars from me.
