## Your go to materials handling and conveying supplier

MinePro Zimbabwe specialises in the repair, maintenance and manufacture of conveyor systems. We keep your "productivity in motion" representing reputable, global materials handling brands.

## Our Promise To You

MinePro Zimbabwe aims to deliver quality service and efficiency to our business partners and clients. We strive to contribute to Zimbabwe's growth and economic empowerment through sustainable development and strategic business investments.

Our business practices are grounded in trust and mutually beneficial business partnerships. The foundations of MinePro Zimbabwe's success lie in establishing and nurturing ethical relationships with both our customers and global original equipment manufacturers.

We carry a complete range of materials handling products and spares, and we also offer repair and maintenance services to assist our clients wherever and whenever we are needed.

All MinePro Zimbabwe staff are trained to provide high-quality customer service and value to all of our clients at all times. With us, you get full technical backup on all products from our suppliers and our expert in-house technicians.

# MinePro Zimbabwe Services

---

We are equipped and experienced in the installation, maintenance and repair of

- All conveyor components and accessories
- Valves
- Filtration systems, and
- Pipelines

We also offer

- Rubber lining for tanks and settlers,
- On-site procurement, and
- Project management

# Premium Workshop Services

## About Us

MinePro Zimbabwe is proud to employ a diligent team of incredibly skilled tradesmen with over 70 years of combined experience. Our qualified and multi-talented workshop crew is made up of Fitter and Turners, Machinists, Fabricators, Boilermakers, Welders, Beltsmen and Splicers with expertise in engineering maintenance, installation and commissioning.

## Our Services

**ENGINEERING SECTION**  
Fabrication and design of projects such as car ports

**MACHINING JOBS**  
Turning - Flanges, Shafts, Pins and Bushes, Threads

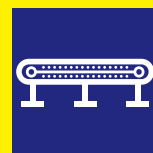

**VALVE RECONDITIONING**  
Of all valve types

**SAND BLASTING**  
Any job, big or small

**RUBBERISING**  
Rubber to metal application for various components such as valve housings

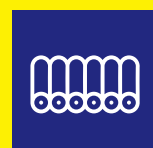

**CONVEYOR BELT SERVICES**  
Belt maintenance and splicing

**RUBBERLINING**  
Lining of tanks, chutes, settlers etc.

**PULLEY LAGGING**  
Application of lagging to all pulley sizes

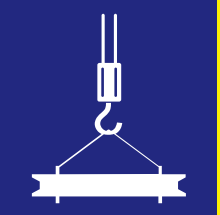

**IDLER MAINTENANCE**  
Reconditioning of conveyor idlers/ rollers

## Why Choose Us

- Expertise And Experience
- Continued Service And Support
- All Under One Roof

# Crane Truck for Hire

2.75 Crane Arm Tonne Lift Capacity

12 Metre Crane Arm Reach

10 Tonne Bin Carriage Capacity

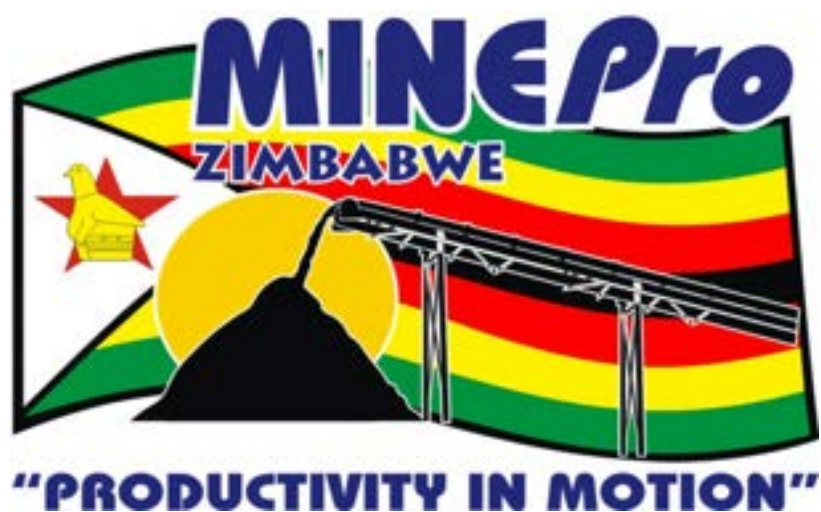

Charged at Dry Rate with Operator per Hour

## Why Choose Us

- Expertise And Experience
- Continued Service And Support
- All Under One Roof

*Partners in Productivity*

# Partners in Productivity

Flexco and MinePro Zimbabwe are committed to maintaining your productivity regardless of operation size or purpose. Look no further for your materials handling solution.

After 115 years in the business, Flexco's reputation for supplying quality conveyor belt products is well established.

Since its inception, Flexco has had one aim, to maximise conveyor productivity. They are continually developing and growing and currently support customers in over 150 countries globally.

## MinePro and Flexco Services

Flexco's approach to partnership favours companies that complement each other. They believe this is the best way to provide customers with quality products and services.

This ethos aligns with our values at MinePro Zimbabwe; we strive to provide an all-encompassing materials handling solution. With Flexco's technical support, we provide customers with the goods and training required to function as productively as possible.

As Flexco's only approved distributor in Zimbabwe, you can rest assured that you are getting premium service. MinePro Zimbabwe provides the expertise, support, and training expected from Flexco for its products. We work in close partnership to ensure our customers experience maximum belt uptime, productivity, and safety.

# Duo-AquaTrap™ 3 in One Onboard Filtration System

## Plastic Housing

- Lightweight
- Allows for multiple mounting options
- With built-in inlet and outlet banjo bolts which allow for multiple flow directions
- Adaptors are available to make the unit compatible with most dominant market devices
- Featuring spin-on technology making the filter reusable and more environmentally friendly

## PTFE Cage with Stainless Steel Mesh

- Separates suspended water using a permanent resin coated screen
- Features other resin coated combination media that is 99.9% efficient in all water separation

Effective,  
Sustainable Free  
and Suspended  
Water Removal

## 10 Micron Paper Cartridge

- Provides dirt particle filtration through multi-pleated combined synthetic media and multi-layered depth media
- Media is dual supported to resist collapse
- Cartridge replacement is the only maintenance required
- Replacement filters are also available in sub micron and 2 micron options

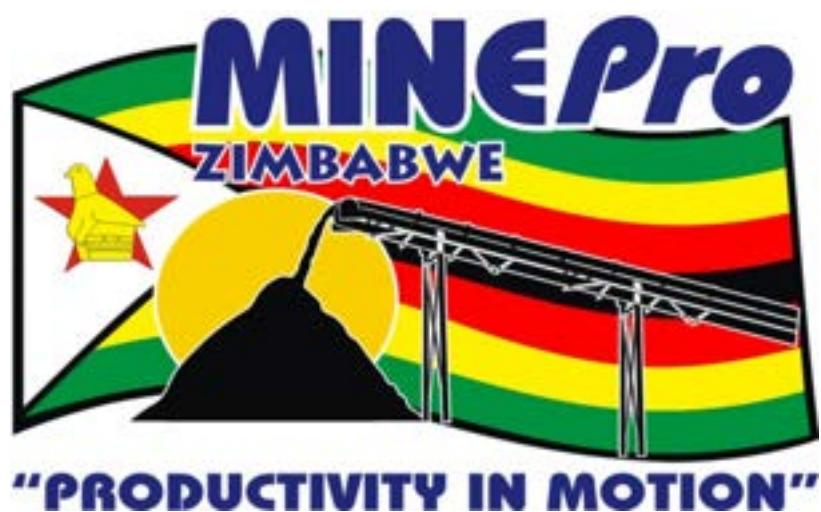

## Transparent Bowl

- Self-venting water drain tap for easy drainage of separated water
- Transparency allows for easy quality inspection
- Durable

Designed in Africa  
for  
African Conditions
