

COVID-19 & Communicable Illness Policy

BCLSguy — a division of Mulder Nursing Inc.

At BCLSguy, the health and safety of our students, instructors, staff, and course-hosting facilities is important to us.

Attending a Course

Please **do not attend an in-person course if you are experiencing symptoms of COVID-19, influenza, RSV, or another potentially contagious illness.**

If you become ill before your course, please contact BCLSguy as soon as possible. We will work with you to determine appropriate options, including rescheduling where applicable.

Course Safety

BCLSguy follows applicable **Heart & Stroke Foundation requirements and recommendations**, current public-health guidance, and any health and safety requirements established by the facility or organization hosting the course.

Depending on the circumstances and course location, additional measures may include:

- Hand hygiene and infection-prevention practices
- Masking or other personal protective measures
- Health screening
- Physical distancing where practical
- Cleaning or modification of equipment and training procedures
- Other requirements established by a hospital, healthcare facility, or host organization

Students will be advised of applicable requirements whenever reasonably possible.

Vaccination

COVID-19 vaccination is not routinely required by BCLSguy for course attendance.

However, vaccination or proof of vaccination may be required when mandated by:

- The course location or host organization
- A healthcare facility
- Applicable legislation or regulation
- Public-health requirements
- Other applicable organizational requirements

Where such requirements apply, students are responsible for meeting the requirements of the facility or organization hosting their course.

Where accommodation is required under applicable human-rights legislation, **BCLSGuy will make reasonable efforts to accommodate an individual's needs up to the point of undue hardship**, taking into consideration applicable law, health and safety requirements, and the requirements of the course location.

Changes to Requirements

Public-health recommendations, Heart & Stroke requirements, legislation, and facility policies may change. BCLSGuy may therefore update its procedures or course requirements as necessary.

Students, instructors, and other participants are expected to follow the requirements applicable to the course and location they are attending.
