Exciting News! We are moving!

The Rollins Animal Disease Diagnostic Laboratory is preparing to move to our new home, the Steve Troxler Agricultural Sciences Center, this September. Our phased move schedule will occur from September 1st through September 17th.

While our phased move will allow us to maintain testing capabilities during the transition our testing capacity will be impacted during this period which may be reflected in an increased testing turn-around-time.

Thank you for your understanding and patience during this time.
