

FLEXBED™ One Piece Curve-able Gray Vinyl Roadbed

made in the USA

(A) SCALE ROADBED ▶ designed for use with 2-rail (scale tie) track: flex, sectional, and hand laid. All sizes can be used individually. Thickness noted with a single asterisk * can also be used on top of optional vinyl subroadbed.

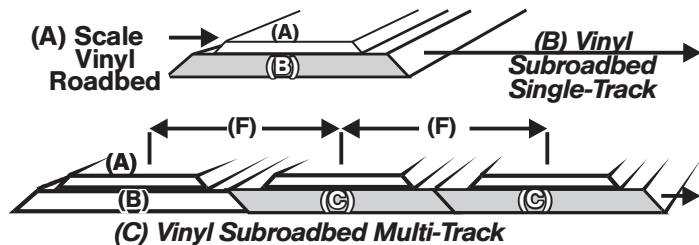

(B) SUBROADBED (single-track) ▶ An optional sub-roadbed designed for use under scale roadbed sizes noted with a single asterisk*. Together they form a roadbed system which simulates the roadway (sub-ballast) that elevates the roadbed to allow modeling of prototypical drainage ditches.

(C) SUBROADBED (multi-track) ▶ Use this optional sub-roadbed next to vinyl subroadbed single-track and under scale vinyl roadbed for additional parallel tracks.

(D) CLASSIC ROADBED ▶ Proportionally sized roadbed designed for all 3-rail (tinplate, hi-rail) sectional and flex track. Roadbed for American Flyer tinplate track is included in this section.

(E) Size ▶ Thickness (height) of roadbed.

(F) Track centers for parallel tracks: HO = 2", S = 2 3/4", O = 4". Dimension "F" matches many club modular standards, including NMRA and NASG.

FLEXBED SHEETS cut easily with a sharp utility knife or scissors. A few suggested uses include: switchblocks, crossings, freight yards, streets, sidewalks, and arches for bridges and culverts.

← To Determine Shipping & Handling Use The Chart Below

Cross reference your US time zone with the number of cases of Roadbed and SubRoadbed in your order. This is the percentage of the subtotal to add for shipping (if it is more than \$13.)

Please do not add less than the minimum of \$13.

NUMBER OF CASES	EASTERN & CENTRAL	MOUNTAIN & PACIFIC	SUBTOTAL
1 - 5	10 %	15 %	Tennessee Residents add 8.5%
6 - 9	8 %	13 %	Shipping/Handling (Minimum \$13)
10 +	6 %	11 %	TOTAL

• PRICES, QUANTITIES, & SHIPPING CHARGES ARE SUBJECT TO CHANGE • WITHOUT NOTICE. THE MINIMUM ORDER IS ONE CASE PER PART NUMBER.
