Konnect

Konnect is a modular shelving and storage system designed to transform workspaces into efficient, flexible zones. Its sturdy metal frame accommodates a variety of accessories, including functional storage, greenery elements and media displays.

Engineered for adaptability, the system allows easy reconfiguration to keep pace with evolving needs. With minimal plastic components and sustainable materials, Konnect combines durability with eco-conscious design. Whether optimising organisation or enhancing collaboration, Konnect delivers a tailored, dynamic solution for any environment.

Lockers

The ØRN Lockers range combines functionality with bespoke design to meet diverse storage needs. Customisable in size, finish, and colour, these lockers are crafted to integrate seamlessly into any space or stand out as bold design statements.

Offering both practicality and style, they are ideal for personal storage in offices, communal areas, or educational settings. With options to personalise and coordinate, ØRN Lockers are a reliable, stylish choice for keeping spaces organised and visually cohesive.

UK Manufactured

Made to Measure

Fully Customisable

Standard & Bespoke Options Available

The configurations shown below are available to order as displayed. However, ØRN Lockers are designed to be fully customisable – most customers choose to tailor dimensions, layouts, finishes, lock types, and accessories to suit their specific requirements.

Need something different? Contact our sales team for a consultation. We'll work with you to design the perfect locker solution for your space, conduct site measurements, and provide accurate pricing based on your exact specifications.

Get Started: +44 (0) 1295 221353 | sales@ornfurniture.com

Lockers - Standard Configurations

About Standard Configurations:

The configurations below are available to order as shown using 400×400×400mm individual locker compartments in MFC finish with CAM locks. Each configuration includes top plinth (100mm), bottom plinth (100mm), and side plinths (18mm each side) for seamless installation. These can be customised to your requirements – contact us to discuss modifications.

What's Included:

Lockers:

400×400×400mm compartments in MFC finish

Plinths:

Top (100mm), bottom (100mm), and sides (18mm) included

Dimensions:

External measurements including plinths

Locks:

CAM lock & key as standard

Design Your Perfect Locker Solution

Every space is unique, and so are its storage needs. Whether you need compact personal lockers, expansive storage walls, or anything in between, we'll work with you to create the perfect solution. Mix finishes, vary compartment sizes, add personalisation – the possibilities are endless.

Popular applications: Office hot-desking storage, school and university facilities, gym and leisure centres, healthcare staff areas, retail back-of-house, and reception storage walls.

Solini

Solini brings versatility and elegance to storage solutions. This range adapts effortlessly to the demands of any workspace. Choose from a palette of finishes, colours, and detailing to create a cohesive look or introduce striking contrasts that enhance the aesthetic of your environment.

Solini makes it simple to design a storage solution that fits your specific needs. Perfect for spaces where function and design are equally important.

Tower

Tower is a modular system that redefines seating and zoning for modern workspaces. Featuring single and double-width modules with half-height steps, Tower allows you to create lounge areas, collaborative zones, or tiered seating for presentations.

Its adaptable design makes it easy to reconfigure as needs change, providing a flexible foundation for dynamic environments. Simple to assemble and endlessly customisable, Tower offers a practical and stylish way to maximise functionality in multifunctional spaces.

UK Manufactured

Modular System

Reconfigurable

Online Configurator

How does Tower work?

Our Tower modular tiered seating system is designed like a large scale building set. Every base unit includes precision cut connection points on top, and matching connectors beneath, so units can be stacked to form tiers. Foot plates and upholstered seat pads also have the same connectors underneath. Simply slot components together to create the layout you want. Everything locks securely in place yet can be reconfigured at any time to suit changing needs.

Understanding Tower Components:

Base Size Options:

Single (426mm wide), Double (852mm wide), or Step (half-height 213mm)

Base Design Options

Standard: Come with a small gap in each of the side panels as a design feature

Store Versions: Gaps in side panels provide under seat storage compartments

Full Base Box: Solid side panels with no gaps or storage

Add-ons:

Foot Plate (adds 18mm height), Upholstered Seat Pad (adds 25mm height), or Combination (one of each - on double base units)

Tower Pricing - Standard Base Boxes

Price Guide:

Prices shown are for base units only. Units with foot plates and upholstered seat pads are priced separately below. All dimensions in millimeters (W×H×D). Pricing is the same for MFC & Plywood base box / side panel finishes.

Antalya

The Antalya collection offers adaptable seating designed for co-working, meeting, and work-café settings. Manufactured in the UK with sustainability in mind, this range combines high-quality materials with a clean, contemporary aesthetic.

Featuring a minimalist steel frame and gently curved lines, Antalya introduces a touch of industrial elegance. Available as side chairs, arm chairs, and barstools, each piece can be customised with a black or coloured frame, paired with wood finish or upholstered finishes. Ideal for flexible environments, Antalya delivers durability, versatility, and style.

Kavli

Kavli is a flexible, high-stacking seating range built around a robust polypropylene shell, designed to suit a variety of spaces across workplace and hospitality settings. The collection includes a four-leg chair, sled base and bar stool, with both chairs available with or without arms.

Chairs can be specified with a fully upholstered seat and back, a simple seat pad, or left as a clean, wipeable shell. A wide choice of finishes means Kavli can be adapted to suit different interiors, from meeting rooms and breakout areas to busy public spaces. The product can stack up to 25 high on a trolley, making it a practical option where space needs to work hard and storage is key.

Loria

The Loria collection features a one-piece polypropylene shell available in side chair, armchair, and barstool options. With frame choices that include metal, polypropylene, or beechwood in four-leg, sled, and swivel configurations, Loria is suitable for a variety of settings.

The collection is available with a plain shell, an upholstered seat pad, or a fully upholstered shell, offering customisable comfort and style options. Designed for use in work-cafés, breakout spaces, meeting rooms, and visitor areas, Loria provides a versatile seating solution with a contemporary aesthetic.

100% Recycled Plastic Option

The Warm Grey (WG) colour option is specifically composed of a blend of 50% post-consumer plastic waste and 50% post-industrial plastic waste, making it 100% recycled. Choose Warm Grey for an environmentally conscious seating solution without compromising on style or quality.

Neve

The Neve collection offers configurable seating solutions with one, two, and three-seat options, customisable with or without arms to suit any modern workspace. Available in a wide range of fabric finishes, Neve allows you to tailor colour and texture to match your décor seamlessly.

Built with a solid timber frame and a metal base, Neve features soft, domestic-inspired cushions supported by a webbing suspension system for added comfort. Designed with sustainability in mind, Neve is a fully circular product, engineered for disassembly to enable re-use, refurbishment, or relocation.

Additional Options & Notes

Construction: Metal tube 40mm x 40mm

Feet: Adjustable feet as standard

Assembly: 4 leg frames come fully welded, 6 leg frames come in two parts

Customisation: Bespoke sizes available on request

Made in: UK Manufactured

Castors available: 4 leg +£92, 6 leg +£145

Veneer & Fenix table tops available on request

Outdoor options - Refer to page 268

Fully welded frames available for high-wear environments

Apex Wood

Apex Wood builds on the robust design of the Apex range, offering a variation with wooden elements for added warmth and a more natural aesthetic. Suitable for office, educational, and commercial environments, this extension retains the strength and longevity of the original Apex set while incorporating a classic touch.

With its versatile style, Apex Wood works well in a range of settings, from team meeting areas to collaborative workspaces and casual dining spaces. The set offers a stable and functional surface, making it a dependable option for both work-related tasks and social gatherings.

Apex Wood Pricing - Upholstered Seat Pad (Add-on)

Fabric Group Guide:

Pricing shown is the cost to ADD an upholstered seat pad to your bench. See page 283 for fabric samples and group details.

About Upholstered Seat Pads:

Upholstered seat pads are fixed to the bench using velcro, allowing for easy removal and cleaning. Pads are available in a wide range of fabric groups to match your workspace aesthetic.

Axiom Pricing - Upholstered Seat Pad (Add-on)

Fabric Group Guide:

Pricing shown is the cost to ADD an upholstered seat pad to your bench. See page 283 for fabric samples and group details.

About Upholstered Seat Pads:

Upholstered seat pads are fixed to the bench using velcro, allowing for easy removal and cleaning. Pads are available in a wide range of fabric groups to match your workspace aesthetic.

Beacon

Returning to our collection for 2026, the Beacon table collection offers a robust and reliable dining solution for canteen and workplace environments. Featuring a fully welded frame with high-quality polished chrome plated finish, Beacon combines durability with a clean, professional aesthetic that suits a variety of settings.

Available in circular, square, and rectangular configurations, Beacon tables are built to withstand heavy use in high-traffic areas. The 50mm × 25mm fully welded under-rail and 38mm diameter mild steel legs provide exceptional stability, while the range of top colours allows you to create the right atmosphere for your space. Bespoke sizes are available to meet specific requirements.

Fio

Fio is a modern cuboid table range, designed with a recessed tabletop that sits neatly within the frame. This creates the appearance of a thin surface, contributing to the minimalist style that Fio is known for.

The recessed tabletop adds a refined touch to the design, enhancing its overall aesthetic. The collection includes a side table, low coffee table, and high coffee table, providing flexibility to meet a variety of needs. Perfect for reception areas, lounges, and breakout zones, Fio is a versatile choice for both formal and casual spaces, blending modern design with practicality.

Nalma

Nalma is a meeting table range with a distinctive angled leg detail that gives it character without shouting for attention. It's designed to sit confidently in both informal and more polished settings – from collaborative project spaces to relaxed meeting areas.

Available in a variety of sizes and shapes, Nalma pairs a solid red oak frame with a durable MFC, laminate or Fenix top. The structure is clean and open, offering generous legroom and clear sightlines all round.

The range also includes a matching bench, stool and bar stool (page 68), all available with an optional upholstered seat in a fabric of your choice – making it easy to build a cohesive space with just the right level of comfort.

Quatro+

Quatro+ extends the popular Quatro table range, offering a rectangular tabletop option for greater design flexibility. This versatile table is ideal for office and educational environments, where space is limited. Its flip-top feature allows for easy storage and mobility, making it a convenient solution for dynamic settings.

With options for castors, feet, or a combination of both, Quatro+ can be customised to suit specific needs. The sleek, modern design complements a wide range of seating products, available in various finishes to match any interior. Its durable construction ensures longevity, making it a strong choice for high-usage areas.

Star

The Star table collection is a modern, adaptable solution for any workspace. Available in coffee, meeting, and poseur heights, Star tables are ideal for offices, cafés, restaurants, and public spaces.

Featuring a polished chrome pedestal base and a durable tabletop, Star blends contemporary design with practicality. The black finish adds sophistication, making it a stylish yet functional choice for casual meeting areas, cafeterias, or reception spaces.

Trestan

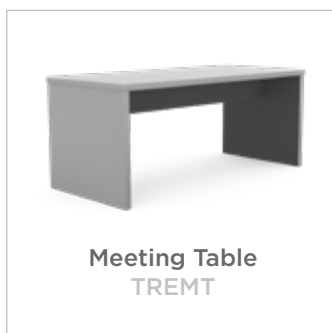

The Trestan table and bench system combines durability, modern style, and functionality. Made from 40mm thick laminate/MFC board, Trestan is built to withstand heavy use in high-traffic areas. Available in a range of colours, the laminate & MFC have the option of high-impact contrasting finishes that add a sleek, contemporary look.

Trestan's versatile design is perfect for a variety of settings, including breakout rooms, informal meeting areas, and collaborative workspaces. With generous surface areas for both work and socialising, and sturdy bench seating for efficient group seating, Trestan enhances any environment with its clean lines and simple, stylish design.

Virka

Virka is a height-adjustable desk range built for everyday use. Simple to operate and solidly constructed, it's a no-nonsense choice for workspaces that need flexibility without complication.

Available as a single desk or a back-to-back unit, Virka features a robust steel frame, a clean 25mm top, and a reliable three-stage electric lift mechanism. Controls are straightforward, the design is unfussy, and everything is made to last.

It's the kind of desk you don't have to think about – it just works.

Converse

Converse is a collection of flexible soft-seating solutions with three height and three width options, ideal for semi-private moments in the workplace. Designed for comfort and practicality, Converse features a deep foam seat and can be finished in one or two tones from an extensive range of fabric options, ensuring it integrates seamlessly into any workspace.

With optional power and data capabilities beneath the seating, Converse adds functionality to its versatile design. Its structured form also makes it an effective solution for zoning areas, providing both comfort and spatial definition in dynamic environments.

Converse Modular

The Converse Modular Seating System is a versatile solution for modern offices and public spaces. With three height options, the modules can be linked and arranged in various configurations, making it ideal for zoning areas and creating adaptable seating arrangements.

Perfect for both confined spaces and open-plan environments, Converse Modular combines flexibility, comfort, and functionality. Its contemporary design ensures it enhances any workspace, from offices to atriums.

Design Your Configuration Online

Converse Modular really comes alive in our online configurator. Visit our website to begin designing your own configuration and see your layout come to life in 3D.

Converse Station

Part of the Converse range, the Converse Station is a fully-configured private booth designed to enhance productivity, creativity, and relaxation. Featuring acoustic materials to minimise ambient noise, it provides a quiet and focused environment within any workspace.

Available in two, four and six-seater configurations with optional power and media integrations, the Converse Station offers both functionality and flexibility. With a choice of one or two-tone finishes from a wide range of fabrics, it seamlessly fits into any setting while maintaining a clean and simple design.

Plats

The Plats collection is a versatile solution designed to meet the diverse needs of modern workspaces. Divided into three key products—Plats Seat, Plats Booth and Plats Workstation—the range allows for tailored configurations to suit a variety of settings and requirements.

As standard, units are supplied without additions on the back, but they can be upgraded with a variety of options to enhance functionality. These include back-to-back configurations, open arm units, integration with Konnect grid-shelving or Locker products, and even presentation units featuring an extended Kobel table. From screen dividers to power and data integrations, fabric finishes, and table top options, Plats offers extensive flexibility and customisation to create the ideal workspace solution.

Design Your Configuration Online

The Plats collection is available on our online configurator at ornfurniture.com, allowing you to design and personalise your perfect unit(s) with ease. Once configured, our helpful sales team will provide a tailored quote to bring your project to life.

Versatile System

Power Integration

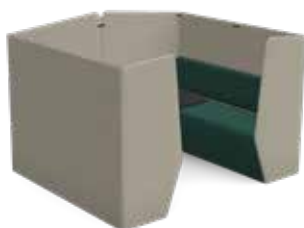

Highly Customisable

Plats Range

Plats Seat
PLAS

Individual seating units with acoustic screening. Available in 1, 2, and 3-seater configurations across three back heights.

Plats Booth
PLAB

Enclosed booth configurations with integrated tables. Available in 2, 4, and 6-seater options across three back heights.

Plats Workstation
PLAW

Focused work desks with acoustic privacy. Available in 1 and 2-wide configurations in medium and high backs, with sitting or standing heights.

Plats Options & Additions

Open Configurations

Left or right hand open sides available on all sizes

Back-to-Back

Connect units for space-efficient layouts

Rear Workstation

Sitting or standing height options

Media Unit

Available on 2-wide medium units

Storage Integration

Space for Konnect shelving or Lockers

Present

Kobel table extension for presentations (high units)

Arm Rests

Priced per arm across all fabric groups

Power & Data

Multiple integration options available

Perfect For:

Private work areas, collaborative spaces, hot-desking environments, breakout zones, meeting pods, presentation areas, and flexible office layouts. The modular nature allows you to adapt your workspace as needs change.

What's Next?

The following pages detail each product in the Plats range with full specifications, pricing across all fabric groups, available finishes, and configuration options. Use our online configurator or contact our sales team to build your perfect Plats solution.

Plats Seat

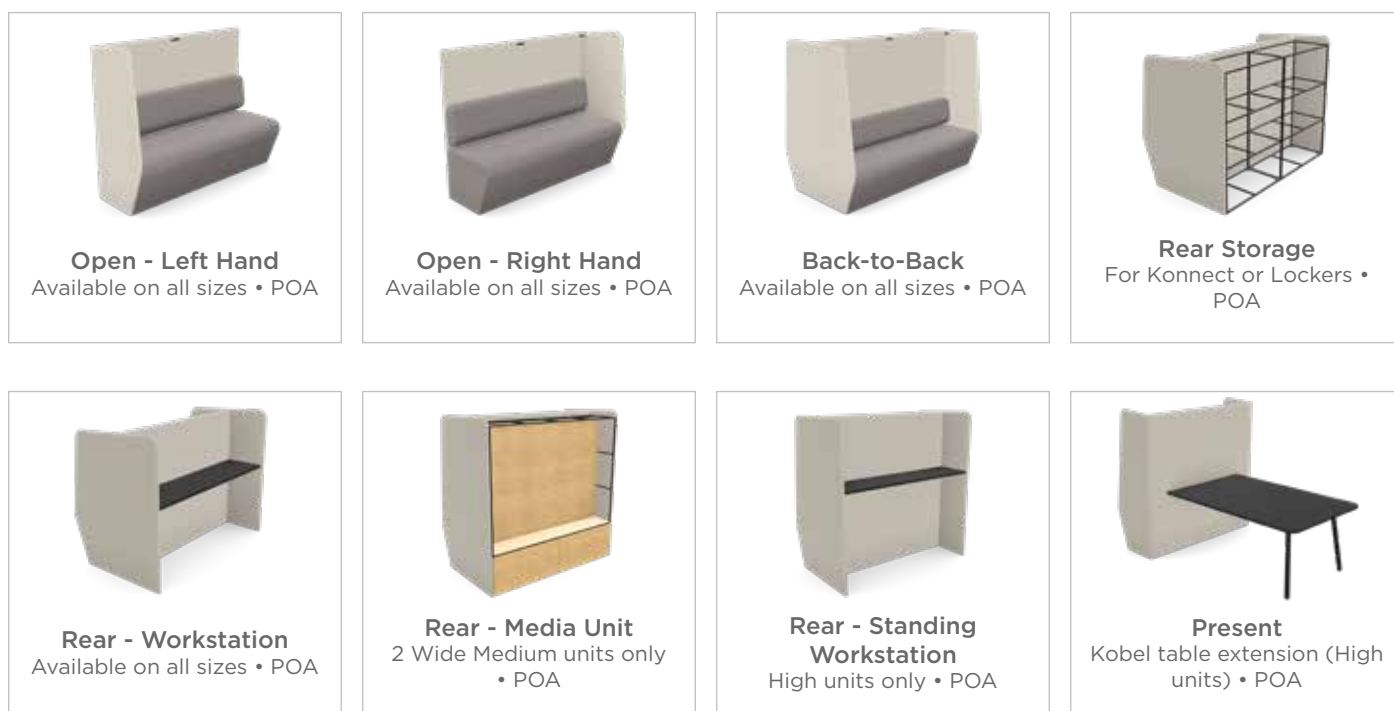

Plats Seat provides individual acoustic seating units perfect for creating private zones within open-plan environments. Available in 1, 2, and 3-seater configurations across low, medium, and high back heights, offering flexibility for various workspace needs.

Plats Booth

The Plats Booth creates enclosed meeting and work spaces by combining two Plats Seat units with connecting side panels and an integrated table top. Available in 2, 4, and 6-seater configurations across low, medium, and high back heights, offering privacy and functionality for collaborative work.

Configuration Note:

Plats Booth is constructed from 2 Plats Seat units with one side panel on each unit swapped for a connecting side panel, across which a table top is fitted to form an enclosed booth area. Options can be applied to both or either side of the booth.

Outdoor Furniture

Our outdoor furniture collection is designed for durability and style in any weather. From lightweight, stackable seating to robust galvanised table frames, every piece is built to withstand the elements while maintaining a professional aesthetic. Whether you're outfitting a work terrace, outdoor café, or public breakout space, our outdoor range delivers long-lasting performance.

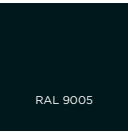

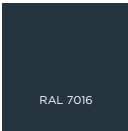

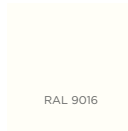

Chairs & Stools

Konya

Due to its weather-resistant polypropylene finish, the Konya chair and stool range is ideal for high-traffic outdoor use. It's lightweight for easy movement, stackable for convenience, easy to clean, and available in the same colour palette for both indoor and outdoor settings, ensuring a cohesive aesthetic.

- Easy to clean and maintain

Loria

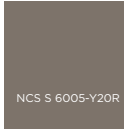

With a polypropylene shell, the Loria Side Chair and Arm Chair—when specified with a four-leg plastic frame—can withstand various weather conditions and be used outdoors. Like the Konya, it is lightweight, easy to clean, and available in the same colour palette for outdoor use, ensuring a consistent look. The Warm Grey shell and frame options are made from 100% recycled materials.

Tables

Pricing Notice - Outdoor Tables

Due to table tops being ordered individually, pricing reflects single-unit costs. However, we offer significantly reduced rates for larger quantities. Speak to our sales team for a personalised quote on bulk orders.

Apex

A durable outdoor solution, the Apex collection includes meeting tables, poseur tables, and benches with galvanised metal frames and solid grade laminate tops. Weather-resistant and built to last, it's a sturdy choice for any outdoor space.

Single-stem minimalist design

Available in circle or square top shapes

Built for the Elements

Every piece in our outdoor collection is specifically designed to withstand UV exposure, rain, and temperature fluctuations. The weather-resistant polypropylene seating won’t fade or crack, while galvanised metal table frames provide exceptional rust resistance. Solid grade laminate table tops are impervious to moisture and easy to clean.

Whether you’re creating an outdoor café, terrace workspace, or public seating area, our outdoor furniture delivers professional performance season after season. All products are UK manufactured with a focus on longevity and low maintenance.
