

PLEDGE

PORTFOLIO

PLEDGE

PORTFOLIO.

Established in 1970 Pledge Office Chairs have remained one of the countries leading office seating manufacturers.

The products contained within this portfolio are not a collection of assembled components, Pledge prides itself in being a “True” office seating manufacturer as many of the components are produced in-house within our own premises, along with the design, development and marketing.

This not only offers value for money, continuity of supply, and products with a distinct signature, but more importantly has a positive effect on the environment.

Our overall product portfolio caters for many market sectors, applications and status needs, and offers a design theme allowing our products to be specified throughout any organisation.
