PREMIUM FAMILY

Seven versions in excellent modular combination concepts with similar appearances but different light solutions will fit smoothly into any retail, museum and galleries environment.

In versions with different light solutions, it covers high performance accent lighting with very narrow beam 6°, different interchangeable beam lens & different optical accessories, flood lighting of exhibits, beam angle adjusting from narrow to wide, wall washing and projection.

Except versatile light solutions, it is also a complete family with different installation methods (track-mounted, pendant, surface-mounted and wall-mounted). So, if you have an environment where you ask for different light solutions & different installations.
