HOW TO PRAY FOR US

*Friend, **thank you** for committing to support our ministry through prayer! Please consider keeping this list in a place where you will be reminded to present the following requests to God on a regular basis:*

1. Pray for Disaster Survivors

It can require years or even decades before a household fully recovers from the effects of a disaster. As you pray for survivors of disasters around the world, please pray that they will see and feel God's love in tangible ways, and that their suffering will bring them into closer fellowship with God as they seek hope during overwhelming and discouraging situations.

2. Pray for our Leadership

We believe that God will continue to provide for the needs of our ministry as long as our leadership team continues to seek his will for Faith Responders. As we continue to pursue the vision God gave us for Faith Responders – to support and encourage communities affected by disaster through our partnership with churches in Florida and throughout the world – please pray that our executive director and board of directors will continue to seek heavenly wisdom in response to earthly challenges.

3. Pray for our Volunteers

Our work would be impossible without the individuals and churches who have chosen to participate in early response and recovery projects and to partner with us as we provide disaster preparedness training. Please pray for safety for our volunteers working in communities affected by disaster, and please pray that God will continue to prepare that hearts of future volunteers as they attend disaster preparedness trainings.

4. Pray for our Partners

Effective disaster readiness and recovery work requires partnerships. Please pray for the churches, businesses, and other organizations who support our ministry through service and financial donations. It is only through this network of support that we can continue to help restore hearts and communities. Together, we have the privilege to play an active role in building God's eternal kingdom!
