

LICENSE PLATE RECOGNITION TRAFFIC TRAILER

The Trinity LPR Traffic Trailer combines the industry's best license plate recognition technology and the best radar components into a single, portable, traffic enforcement and investigative solution platform. Trinity builds these trailers to withstand the rigors of extreme weather conditions and maintain extended operational deployment time. The Trinity Mobile LPR Traffic Trailer is easy to deploy, easy to use, and easy to maintain. And it's backed by the best warranty program in the industry!

Equipped with high quality Vigilant Reaper LPR cameras and software, high performance edge-computing resources, and near real-time alerting, the LPR Traffic Trailer easily processes high volumes of plate reads against fast moving traffic with incredible accuracy and immediate notification when a hit is detected.
