

And Now...I'm Gone

Words & Music by James C. Burns

I been walking around.. looking for myself..
to see what I could see
I get lost... in the time I spend... being me.

I've been walking around looking for some thing,
Something more, that I missed.
I've been walking round... up and down your street
That old familiar pain just... just waiting there... for me

Time for change in my soul
Kinda hard ...to go it alone.
Until I'm gone.

I've been walking round with a ...pin hole in my heart..
One for very choice I never made.
I've been kneeling down on a faded memory
I've been holding on...to you...and me.

Chorus

Take me down... Cause I been going strong.
Break me down... but I keep moving on.
Patch up the holes.. In the stories that I own
And then I'm gone...Oh yeah, I am gone.

I've been driving around, and it's 3 am,
All the lights are turning green.
Drove out by Lake...our ghost was standing there.
Gave em one last smile Then WE vanished in the air..

ChorusI been driving round ...Looking for myself.
