

After hours spent searching for the perfect location for our intimate wedding, we finally found Kingsworth Barn and Stable! From the moment we drove through the exclusive private gates we were impressed. The property is amazing for a charming country wedding vibe featuring an outdoor fire for ambiance or cool nights and well maintained wooded trails leading to an outdoor chapel called Forest Cathedral.

The beautifully preserved 1832 barn is decorated with a rustic charm, showcasing it's history and original architecture. You can see how much thought and effort was put into every detail, including the renovated spacious horse stable bathroom facility. Honestly, guests will spend time in there too, it's that inviting. you have to see this Venue for yourself to truly appreciate it.

Tim and Margarida are not just great hosts but amazing people. We were truly so lucky to have met them! They made our wedding day perfect. All of our guests could see how much effort and attention they gave to our wedding from the set up to the tear down. Their efforts allowed us to enjoy our wedding and spend time with our guests, stress-free. We got tons of compliments on the venue choice! Thanks again Tim and Margarida!
