

Doorstep Valet Trash Service

Designed for resident convenience, our service plays a key role in maintaining community cleanliness, reducing maintenance tasks, while also adding a boost in both revenue generation and curb appeal for property owners, making leasing a little easier!

Starting service, we leave each resident an educational door hanger along with their personal 13-gallon Trash Bin you see below.

Our W2 employees will then collect residents' trash 5 nights per week starting at 8:30 PM Sunday-Thursday. While on-site they will also provide parking lot litter removal services, dog waste pickup services, and report any trash violations.

Doorstep Recycling Service

Our doorstep recycling service is simple. We take the lead in educating the residents about recycling and using our service. We will encourage residents to put any recycling in blue or clear bags to differentiate it from normal trash.

We will then collect the recycling in a dedicated bin alongside the normal doorstep trash service, seamlessly integrating recycling for your residents at no extra charge!

There is no need to worry about future unexpected compliance fines. Help the environment and provide a Cleaner Living for the residents!
