

Buy Farm Fresh Hogs

Locally Raised Farm Fresh Hogs

between 250-300 lbs. on the hoof

When you order a 1/2 or whole hog from us, we buy it directly from a local farmer who has been a long-standing customer of ours and has never delivered anything but top-notch hogs weighing between 250-300 lbs. on the hoof. You will then speak with an experienced butcher to walk you through your cutting options. We slaughter the hogs immediately upon arrival and process them after hanging for 2 days, providing you with fresh, farm-quality meat without requiring you to be a farmer. After processing, you will receive a phone call letting you know that it has been vacuum-sealed and frozen, ready for you to pick up.

A deposit is necessary to reserve your order, with the remaining payment due on the pickup date. We will contact you with the pickup date, the hanging weight, and the total bill.

Thank you for choosing JM Meat Processing for your custom hog orders.
