DoodlEgg Specials

200 Club Vault:

There are 200 specials that celebrate the projects that have helped us so far, and the entire 10xrp will be used to purchase tokens off the dex. These tokens will be held until full mint out and then all holdings will be equally divided amongst the 200 club members

XRPeafe DoodlEgg Cups:

There are 40 DoodlEgg Cups available and these are rewarded to the first 40 holders that manage to collect 40 DoodlEgg NFTs. These EggCups will equally share all secondary sale income on a quarterly basis for life. You will need to fill in a ticket in our DoodlEgg Discord and once checked your EggCup will be sent for free. Become a DoodlEgg Whale today!

We are very capable of checking wallets so please do not try and re use the same 40 NFTs with a different wallet as this will be easily flagged.

Asset Vault

15% of income will be used to buy potentially highly appreciating xrpl nfts and art. The entire collection will be given away at mint out.

XRPL INcubators

Our first problem solve will be to enable an easy route to a mix of tokenised asset exposure, all on the XRP Ledger. We have highlighted the utilised roles that the DoodEggs will hold within the OpenEgg ecosystem.
