Reimagine space.

EmagiPanel™

PRIVACY ROOMS

Get the privacy you need,
at a price you can appreciate.

High-performance, cost-effective personal privacy solutions.

With the increase of open concept workspaces, comes the growing need for a complementary solution; somewhere private. Employees often need a quiet place to do more focused work, make calls or have video conferences. They need somewhere to meet with colleagues, interviewees and clients. They need spaces to contemplate and meditate. And, new mothers need a private place to nurse or pump.

That's why Emagispace created the EmagiPanel™ Privacy Rooms.

Available in a range of sizes to suit your needs, EmagiPanel Privacy Rooms help maximize workspace utilization while providing a quiet place to conduct business.

With sensor-activated LED lights, automatic door closer, duplex outlets and dual USB plugs, exterior finish options and a limited 10 year warranty, Focus Rooms are ADA compliant, easy-to-assemble and deliver within 4 weeks.

Quiet. Fast. Affordable. Re-imagine your space today.

The office space solutions you need for a changing work environment.

Workspaces are changing: open concept offices are everywhere. These designs maximize space, improve collaboration and create a cultural identity. But there are times when employees need a place away from the hustle. A place to retreat and focus.

At Emagispace we are leaders in helping businesses, employees and lessees face their unique workspace challenges. Agile workspaces improve space utilization and increase creativity, productivity and quality of life. Our modular, kitted solutions adapt as corporate needs evolve; from pods that provide privacy to rooms that allow a place to focus. Emagispace offers high-performance, cost-effective personal privacy solutions that empower employees to be more productive and satisfied at work. EmagiKit™ Privacy Pods & EmagiPanel™ Privacy Rooms are quiet spaces to get work done – from private phone calls to a personal place to focus.

Additional personal privacy solutions from Emagispace.

EmagiKit PRIVACY PODS

EmagiKit Privacy Pods give organizations incredible flexibility – they are easy to install with only two people in less than 30 minutes so it provides the ability to easily reconfigure space without the burden of rigid building or millworks solutions. In addition, Privacy Pods are available in a wide variety of colors and finish options.
