Autumn the new single from T@NE is a pop song of sensual proportions (LISTEN HERE) conveying the feeling of fresh kisses on your lips, romantic nights and ecstasy. Autumn is sure to highlight what love is and can be.

Composed by T@NE and Be Steadwell Autumn went through many musical stages. From the time T@NE and Be sat down at the piano, to the point now where it became an epic pop song fully produced by T@NE, one thing that stayed consistent throughout was the feeling and the vibe of the composition.

T@NE musician, saxophonist, composer, producer, rapper, vocalist is from Brooklyn New York. Growing up in a musical environment at an early age allowed T@NE to develop love and passion for what he does. T@NE along with his bandmates Taber Gable keyboards, Andrew Renfroe guitar, Dan Pappalardo bass, Peter Manheim drums, are making music for the future. Incorporating all genres of music and a real sense of unity and teamwork allows T@NE's music to be enjoyable, inspiring and energizing to listen to.
