Dear Andrew

Thank you, your team and your contractors all for the work you have done for our new office. It looks fantastic, and our team are delighted with their new environment.

It has been a pleasure to work with Arkam Interiors during this project, even with the challenges of a pandemic to boot. We at Fujifilm very much appreciate all your planning and hard work to deliver the project on time.

In particular, the gorgeous entry and reception area together with the flexibility of the workspaces available, providing the team ample space and opportunity to have impromptu meetings, with use of the adaptable spaces.

Thanks, Andrew and the team for our new space.

Yours sincerely

Pierre Visser
