## ABOUT US & OUR MISSION

What makes Edmond Center Court Junior program different? We believe that tennis is a journey, and our goal is to grow and nurture our junior players throughout their journey.

We structured our Junior program to develop the skills and fundamentals of tennis for players of all ages and abilities. The 10 & under program allows the player to progress from lower compression balls to heavier compression balls with the use of modified courts and smaller racquets.

We utilize games and drills to incorporate learning accurate technique, proper footwork, strong focus/concentration skills, and to encourage health and fitness on and off the court.

Center Court's tennis professionals include USPTA elite and master certified coaches who possess junior and collegiate coaching experience. We also have coaches that have achieved world rankings on the ATP Men's Professional Tour as well as represented their country on the Davis Cup.

Our coaching staff continues to stay current with the newest teaching methods by attending USPTA and USTA workshops. Coaches work together through weekly staff meetings to provide our players with consistent instruction and constructive feedback to attain their goals.

### Enrollment Commitment

When you enroll, you are paying for you child's placement in the session instead of their attendance. With your tuition payment, we reserve your child's class spot for the entire session and hold it for them, even if they have to miss. Often we have waitlists for classes. Due to this policy, we are not able to offer refunds for tuition or registration fees for missed classes or drops during the session unless you withdraw at least 24 hours before the first class.
