## New GTXRaster CAD Series 2021

#### **Update Registry dialogs**

The Update Registry option is used when you have installed GTXRaster CAD Series under the Admin or a different user.

The Update Registry option will create the GTX profiel and the GTX sortcut for the logged on user. In order to perform the update registry function you need to run the GTXRaster CAD Series installer executable again or select the program from the "Program & Features" list from the installed programs.
