

Sept 15, 2022 Visa Unit
New Zealand Embassy

37 Observatory Circle
NW Washington DC 20008 USA

Dear New Zealand Embassy,

The applying student is part of a Frontiers Abroad and University of Canterbury study abroad programme. This programme is unique because it begins with a 4-week field course throughout New Zealand prior to the beginning of semester 1.

This field course begins on the **21st of January, 2022** and continues until the beginning of semester 1 (20th of February) at the University of Canterbury, where they will be studying for the semester. Frontiers Abroad and the University of Canterbury are working together to deliver this programme, as such, this is a vital part of the students curriculum at the University of Canterbury.

I would like for the applying student's visa to accommodate for the additional field course. If you have any questions, please feel free to get in contact with me.

Darren Gravley
