Client STORY

Meet Alyssa, Austin
and baby Grayson,
born on May 20, 2025

When Alyssa came to LIFE Pregnancy Center last year for a pregnancy test, she and her boyfriend, Austin, were facing the unexpected. The pregnancy wasn't planned—but from the very beginning, Alyssa expressed a deep desire to have her baby. She shared that Austin was supportive, and together they began considering their next steps.

At LIFE Pregnancy Center, our consultants walk alongside every client, offering compassion and support. We present the options of adoption and parenting, while providing encouragement and practical resources every step of the way. After thoughtful conversation and support, Alyssa and Austin made the brave decision to parent their precious child.

They received a free ultrasound from one of our registered nurses—a powerful moment that deepened their connection to the life growing within Alyssa.

In the months leading up to baby Grayson's birth, the couple faithfully returned each week for parenting classes and monthly one-on-one consultations. These visits became more than lessons—they became a place of trust, growth, and relationship. Through it all, our staff had the privilege of walking with Alyssa and Austin, encouraging them as they stepped into their roles as parents.

Today, Grayson is here—healthy, loved, and surrounded by two parents who are stronger and more confident because of the care they received at LIFE Pregnancy Center.

"At the Pregnancy Center everyone is great. We feel very welcomed," Alyssa shared. "We never felt judged –only supported. I feel very heard. It is a great place."

Because of friends like YOU, stories like Alyssa's and Austin's are possible.

Your support equips young moms and dads with the confidence, education, and resources they need to choose life and thrive as a family.

Will you help us continue this **LIFE-
SAVING, LIFE-CHANGING** work?

Your gift today can make a difference in the life of the next Alyssa, Austin, and baby Grayson.
