

ADULT CLOTHING PROTECTOR

MATERIALS

- Pattern is about 18x30". Two fat quarters will make one side.
- Velcro sew-on type, one piece 2" long (both soft & hook sides)

INSTRUCTIONS

1. Cut out 2 sides. Nice to make fabrics different on each side. Be sure to cut with either right or wrong sides together so you get two mirrored sides.
2. Right sides together, sew around with 1/4" seam, leaving about 3" opening to turn along side or bottom.
3. Turn, press, and top stitch around entire protector.
4. Sew a horizontal seam across middle of protector so fabrics stay together when washing.
5. Sew Velcro pieces to protector tabs as shown in pic. Sew soft piece on upper tab. Sew hook piece on lower tab. Sew around all edges of Velcro and once across middle.
By sewing Velcro on upper tab length-wise, head opening can be slightly adjusted.
