

PACKAGE-EDU-2

PACKAGE-EDU-2 — Full School AI Transformation

Education

For	Schools, trusts, and MATs ready for comprehensive AI adoption across all staff levels
Delivery window	Engagement-based — typically 8 to 20 weeks depending on school size and scope
Discovery required	Yes — mandatory
Components	Multiple courses + consulting engagement + optional infrastructure build

Purpose

A complete transformation package that takes a school from its current state to fully AI-enabled operation. Combines strategic planning, policy development, whole-staff training, curriculum integration, and optionally a custom local AI infrastructure build. This is the most comprehensive education offering — designed for schools that want to do this properly, not piecemeal.

Included Components

Component	Code	Type	Delivery note
Strategic AI Adoption for Schools	EDU-SL1	Course	Foundation — sets the strategic direction
AI Policy, Governance, and Risk	EDU-SL2	Course	Policy suite developed alongside strategy
Introduction to AI for Educators	EDU-T1	Course	Whole-staff foundation training
AI in Lesson Planning and Resource Creation	EDU-T2	Course	Practical application for teaching staff
AI in Assessment and Feedback	EDU-T3	Course	Assessment-specific training
AI for Department Leadership	EDU-MM1	Course	Middle management capability
AI and Staff Development Strategy	EDU-SL4	Course	Sustaining development long-term

School AI Transformation — Premium Consulting	EDU-EX4	Consulting	Full transformation engagement — discovery, roadmap, and implementation
Local AI Infrastructure (optional)	BIZ-A11	Consulting	Private AI infrastructure build — scoped separately if required

Delivery Sequence

Begins with discovery (EDU-EX4 Phase 1). EDU-SL1 and EDU-SL2 delivered to leadership first. EDU-T1 delivered to all staff. EDU-T2, EDU-T3, and EDU-MM1 follow in parallel tracks. EDU-SL4 delivered toward the end to embed sustainability. Local AI build (if in scope) runs as a parallel workstream. Exact sequencing confirmed during discovery.

Outputs and Deliverables

- Complete school AI strategy with 12-month roadmap
- Full AI policy suite adopted by the governing body
- Whole-staff AI training delivered with evaluation data
- Department-level AI integration plans
- Staff development pathway with CPD calendar
- Operational local AI infrastructure (where in scope)
- Complete documentation package for ongoing reference

Customisation Options

Components can be adjusted based on discovery. Student courses can be added. Additional middle management or teacher courses can be included. Infrastructure build is optional and scoped separately. Delivery sequence adapts to school calendar and staff availability.

Prerequisites and Conditions

Discovery conversation mandatory. School leadership commitment required. No technical prerequisites — the package starts from wherever the school currently is.
