

AHCC CONSULTING SERVICES

AHCC consulting encompasses services aimed at helping organizations improve their operations, processes and outcomes. AHCC consultants work with DMEPOS companies and Pharmacies to address challenges, optimize performance, and achieve goals.

Here are key areas in which consulting services may be provided for a new start-up DMEPOS business:

- Provide information on space needs for location.
- Help with state LLC filing.
- Help apply for EIN number.
- Help apply for NPI number
- Provide customized Policy and Procedure Manuals that exceed accreditation standards.
- Provide telephone, email and virtual ongoing assistance as the organization works to comply with accreditation standards and ensure compliance with regulatory requirements.
- Help apply for required state licenses.
- Provide information on other required local and state licenses.
- Answer questions about the organization's new Policy and Procedure Manual and help them to comply with the policies and procedures.
- Provide copy of Medicare Supplier Standards and review requirements.
- Provide copy of Medicare Quality Standards and review requirements.
- Provide list of suppliers for DMEPOS companies. Review what they need to order to get started.
- Complete the application for accreditation and upload required documents.
- Provide all required training / education documents and testing to meet accreditation standards.
- Provide a sample personnel record to use to complete a personnel record on each staff member and provide an Organizational Chart.
- Provide sample patient folders to meet accreditation standards.
- Complete a mock survey and audit to make sure the company is ready for accreditation survey. This includes a compliance audit and a performance improvement (PI) report. AHCC also provides Performance Improvement Audit Tools for future use.
- Provide an annual calendar of tasks to be completed. Help with an annual compliance audit and PI audits is provided, if requested.
- Help the company apply for Medicare Provider Number (855S) (if the company will be billing Medicare and/or third-party insurances)
- Provide information on what to expect during the National Provider audit after applying for a Medicare Provider number.
- After the above is completed, the company should start to market their business, receive orders and provide approved products to patients.
