ADVANCED HYDRA FACIALS

ADVANCED HYDRA FACIAL TECHNOLOGY

Our Skin Therapy aims to provide anti-aging skincare with a focus on using natural botanicals combined with advanced technology. The formulations & techniques are developed by a team of experts, including doctors, professional therapists, and herbalists, with a focus on delivering long-term benefits to the skin. The goal is to provide outstanding results that will surprise and impress you.

Hydra Facial is a non-invasive facial treatment that aims to improve the overall appearance and health of the skin. It involves using a specialized device to cleanse, exfoliate, extract impurities, and deliver serums to the skin.

PROCEDURE INCLUDES:

HYDRODERMABRASION is non-invasive facial procedure that combines the exfoliating benefits of microdermabrasion with the hydrating benefits of a facial. It uses a specialized device to deliver a jet stream of water and oxygen to the skin, which helps to exfoliate dead skin cells and unclog pores. The water and oxygen also help to hydrate and nourish the skin.

ULTRASONIC SKIN SCRUBBER uses ultrasonic waves to create high-frequency vibrations that loosen and remove dead skin cells and impurities from the surface of the skin. It also helps to increase circulation and stimulate collagen production.

ULTRASOUND waves are used to penetrate deep into the skin to stimulate collagen production and improve the overall texture and tone of the skin. This can help reduce the appearance of fine lines and wrinkles, and improve skin firmness.

RADIO FREQUENCY therapy uses high-frequency electromagnetic waves to heat the deeper layers of the skin, which can stimulate collagen production and improve appearance of fine lines and wrinkles, help to tighten and firm the skin, and uneven skin texture.

COLD HAMMER is gently pressed against the skin of the face, causing the blood vessels to constrict and the skin to tighten. Reduces inflammation, redness in the skin, size of pores, swelling and puffiness in the face, particularly around the eyes.

OXYJET is a high-pressure jet used to spray a fine mist of oxygen to deliver a customized blend of skin-nourishing ingredients such as hyaluronic acid, vitamins, and antioxidants to the deeper layers of the skin. This helps to hydrate, brighten, and rejuvenate the skin by increasing oxygen and nutrient supply to the skin cells.

LIGHT THERAPY: This uses different wavelengths of light to improve skin health and appearance. It works by emitting light energy in specific wavelengths, which penetrates the skin at different depths to target various skin concerns such as acne, wrinkles, hyper pigmentation, and inflammation.

Red light is often used to stimulate collagen production and promote healing,

Blue light is used to kill acne-causing bacteria and reduce inflammation.

Green light can help to reduce hyper pigmentation

Yellow light can help to soothe the skin and reduce redness.

SHIMMER RADIANCE

This luxurious treatment uses the power of 24k Gold, Sandalwood, and Saffron to impart a beautiful glow to the skin. The 24k gold stimulates collagen production and helps reduce the appearance of fine lines and wrinkles. Sandalwood is known for its antiseptic and healing properties, while Saffron brightens the skin and helps reduce pigmentation. This facial is perfect for those seeking a radiant and luminous complexion.

LUXURIOUS PEDICURES & MANICURES

LUXURIOUS SPA PEDICURE

A spa pedicure is a luxurious treatment that combines the relaxation of a professional foot and nail care with the soothing massage of a chair. The process starts with a warm foot soak to soften and prepare the skin for the jelly crystallizer soak.

The jelly crystallizer soak is a special type of foot soak that uses crystals that transform into a soft, gel-like substance. This substance provides a gentle massage to your feet while also helping to exfoliate dead skin cells, leaving your feet feeling soft and smooth.

The nails are then trimmed, shaped, and buffed to perfection. Cuticles are pushed back, and any excess skin is removed.

While the massage chair is doing its magic, your technician will scrub your feet with a salt based scrub followed by exfoliation of the bottom feet & heels thoroughly. You'll then enjoy a good foot and leg massage with a Relaxing massage cream.

After the exfoliating scrub and foot massage, hot towel is wrapped around each foot to help the skin absorb the moisture from the massage cream, as well as to provide a relaxing and soothing sensation to the feet. The heat from the towel also helps to increase circulation and reduce muscle tension.

A hydrating seaweed peel-off mask is applied to your feet to nourish and hydrate the skin. Once the mask is completely dry, it is peeled off, revealing smoother, softer, and more radiant skin underneath. This can be a very satisfying experience, as you can literally see the results of the treatment after the mask is removed.

To finish the treatment, you can choose from a wide selection of nail polishes or opt for a natural look. The result is beautifully groomed and pampered feet that feel light and refreshed, and a relaxed and rejuvenated body.

SPA PEDICURE

Indulge in a lavish and opulent spa experience with our exquisite Ultimate Spa Pedicure, meticulously crafted to lavish your feet with luxurious pampering, hydration, and rejuvenation. Immerse yourself in a world of exotic bliss and choose from our range of alluring types, including the exotic **MOROCCAN**, the sumptuous **FRENCH CLAY**, the mystical **DEAD SEA**, and the alluring **CHARCOAL**. Our pedicure promises to exfoliate, nourish, and revive even the most exhausted feet, leaving you feeling revitalized and refreshed like never before.

LUXURIOUS SPA MANICURE

A luxurious spa manicure is a pampering treatment for your hands and nails that typically takes around 60 minutes to complete. The process starts with a warm hand soak to soften and prepare the skin for the jelly crystallizer soak.

The jelly crystallizer soak is a special type of hand soak that uses crystals that transform into a soft, gel-like substance. This substance provides a gentle massage to your hands while also helping to exfoliate dead skin cells, leaving your hands feeling soft and smooth.

Once your hands are soft and supple, the technician will trim and shape your nails, as well as gently push back and trim your cuticles. Your nails will then be buffed and polished to a beautiful shine.

While the massage chair is doing its magic, your technician will scrub and exfoliate dead skin on your hands with a salt based scrub. You'll then enjoy a good massage with a Relaxing massage cream.

After the exfoliating scrub and foot massage, hot towel is wrapped around each hand to help the skin absorb the moisture from the massage cream, as well as to provide a relaxing and soothing sensation. The heat from the towel also helps to increase circulation and reduce muscle tension.

A hydrating seaweed peel-off mask is applied evenly and left to dry for 10-15 minutes. Once the mask is completely dry, the esthetician will carefully peel it away from your skin, revealing smoother, softer, and more radiant skin underneath. This can be a very satisfying experience, as you can literally see the results of the treatment after the mask is removed.

To finish the treatment, you can choose from a wide selection of nail polishes or opt for a natural look. Overall, a luxurious spa manicure is an indulgent and relaxing experience that can leave your hands looking and feeling beautiful, soft, and well-groomed.

DETAN

DETAN TREATMENT

Unleash the exotic beauty of your skin with our luxurious detan treatment. Our special blend of exfoliating walnut scrub and hydrating detan pack is designed to reduce the appearance of tan and restore the natural color of the skin.

Our hydrating detan pack, infused with nourishing botanicals, will soothe and hydrate your skin, leaving it irresistibly soft and supple.

It's also important to note that while detan treatments can help fade pigmentation, they do not provide complete protection against UV damage. To protect your skin from further sun damage, it's important to wear sunscreen and take other precautions such as wearing protective clothing and avoiding prolonged sun exposure.

We offer two options for our detan treatment: an exfoliating detan pack and a bleach. However, we would like to clarify that while both options can help to reduce the appearance of tan, we would never recommend using bleach on your skin. Bleach is harsh that can

cause severe skin irritations and burns, and is not safe for use on the skin.

That being said, the choice is ultimately yours. Our exfoliating detan pack is a safe and effective option that gently removes dead skin cells and helps to fade pigmentation, leaving your skin looking brighter and more radiant. Our pack is made with natural ingredients and is gentle enough for most skin types.

If you choose to opt for the bleach, we would strongly advise against it. However, if you still wish to proceed with the bleach, we will provide a thorough consultation to ensure that you understand the potential risks and how to use the product safely. We want to ensure that your experience with us is safe and enjoyable, and we will do everything we can to help you make an informed decision about your treatment.

HAIR & SCALP REJUVENATION

HAIR & SCALP REJUVENATION TREATMENT

Indulge in the ultimate hair and scalp pampering experience with our Hair & Scalp Rejuvenation Treatment - a luxurious and exotic treatment that will transport you to a world of relaxation and rejuvenation.

Our treatment begins with a personalized consultation, where our skilled therapists will identify any hair and scalp concerns you may have and tailor a bespoke treatment plan to meet your specific needs. We use only the finest, natural ingredients to cleanse and nourish your hair and scalp.

We begin by applying a salicylic acid walnut scrub to gently exfoliate your scalp, leaving it feeling smooth and refreshed. This is followed by a gentle cleanse using a sulfate-free shampoo to further nourish your hair and scalp without removing any essential oils.

Next, we spray a hydrating scalp serum to infuse your scalp with moisture, preparing it for the nourishing treatment that follows.

Our treatment cream is made with a rich blend of extracts from exotic oils such as Almond oil, Olive oil, Coconut Oil, Argan Oil, Shea Butter, Cocoa Butter, and aloe vera, combined with a selection of essential oils such as lemongrass, Ylang Ylang, Teatree, Rose, Lavender, Cedarwood, and Geranium. These ingredients are carefully chosen for their nourishing, moisturizing, and rejuvenating properties, leaving your hair feeling soft, silky, and full of vitality.

Our experienced therapists will then massage your scalp and hair to stimulate blood flow and enhance the absorption of the nutrients in the treatment cream. A hair steam treatment follows, allowing the cream to penetrate deep into the hair shaft and scalp, leaving your hair and scalp feeling deeply nourished and rejuvenated.

Finally, we rinse and condition your hair, leaving it with a healthy shine that will turn heads.

Escape to a world of exotic indulgence with our Hair & Scalp Rejuvenation Treatment - the ultimate luxury experience for your hair and scalp.

Here's some more information on the extracts and essential oils used in our Hair & Scalp Rejuvenation Treatment:

Argan oil nourishes and repairs damaged hair with its fatty acids and vitamin E.

Almond oil promotes healthy hair growth and adds shine with its vitamins and minerals.

Olive oil protects and moisturizes hair with its high antioxidant and vitamin E content, leaving it soft and silky.

Coconut oil prevents hair breakage and split ends while promoting hair growth as a natural conditioner.

Shea butter moisturizes and protects hair with its vitamins and fatty acids, reducing breakage and frizz.

Cocoa butter smooths and softens hair as a natural emollient, making it more manageable and easier to style.

Aloe vera soothes irritated scalps and reduces dandruff with its healing properties.

Lemongrass oil has antifungal and antibacterial properties, promoting scalp health.

Ylang ylang oil balances scalp oil, making it beneficial for those with oily or dry scalps.

Tea tree oil soothes irritated scalps and prevents dandruff with its antifungal and antibacterial properties.

Rose oil nourishes and strengthens hair, promoting healthy growth and shine.

Lavender oil stimulates hair growth and soothes irritated scalps.

Cedarwood oil improves circulation in the scalp, promoting healthy hair growth.

Geranium oil balances scalp oil and tightens and tones the scalp with its astringent properties.
