2000 - Carpathian Tales.

2020 - Pentafixion (Single—Digital Release only)

2003 - Dominion Satanas.

2020 - Pentafixion (Album Release)

With momentum building, 2018/2019 saw Mephisto welcome international representation with a view of developing a larger global following.

Adopting a grittier live performance harkening back to a more traditional hard edged Mephisto appearance, old fans and new ones alike, resonate with the Pioneers of Cuban Black Metal.

Mephisto once again returned to the studio to continue the development of their highly anticipated album "Pentafixion". Mephisto surged forward to record 12 new tracks including scoring an orchestral version to accompany the songs penned and composed by Mephisto Bassist Alex Jorge (aka Mole)

The band's most hard hitting track from this album is "Pentafixion", which was completed late Sept 2019 with filming for the complimentary video clip also undertaken.

The video was shot on location in Havana by renowned Producer and Film Maker Victor Vinuesa (Vitiko) and demonstrates perfectly Mephisto's professionalism, dedication and passion to their craft.

Mephisto then under took its first tour of Nicaragua in late 2019 selling out venues and building a new fan base in the heart of Managua.

A national tour of Cuba was concluded just before Covid 19 hit but unfortunately plans for the returning tour of Nicaragua were postponed due to the pandemic. Mephisto instead returned to the studio to finalise mix down and mastering of their latest work which is slated for release late 2020 / early 2021.

More details to follow regarding the official release dates and locations.
