DISCLAIMER

STACK NAMES ARE FOR BRANDING AND EDUCATIONAL PURPOSES ONLY AND ARE NOT THE NAMES OF FDA-APPROVED MEDICATIONS. EACH STACK REPRESENTS A WELLNESS PROTOCOL CONTAINING COMPOUNDED PEPTIDES AND/OR MEDICATIONS, PRESCRIBED INDIVIDUALLY BASED ON A LICENSED PROVIDER CONSULTATION. A MEDICAL CONSULTATION IS REQUIRED PRIOR TO PRESCRIBING. INDIVIDUAL RESULTS MAY VARY. THESE PROTOCOLS ARE INTENDED FOR WELLNESS SUPPORT AND SHOULD NOT BE INTERPRETED AS CLAIMS TO DIAGNOSE, TREAT, CURE, OR PREVENT ANY DISEASE.

Reserve

SANA SANA COLITA DE RANA.™

BPC-157 + TB-500 + KPV + GHK-CU

BPC-157 → gut healing + promotes blood vessel
growth + tissue repair

TB-500 → inflammation control + muscle recovery

KPV → skin + gut anti-inflammatory

GHK-Cu → collagen + skin regeneration

**This powerhouse peptide stack
synergistically boosts tissue repair,
reduces inflammation, and
accelerates recovery.**

PESO PLUMA PROTOCOL™

TESAMORELIN + IPAMORELIN + AOD-9604 + MOTS-C

Tesamorelin → reduces visceral fat via IGF-1 pathways.

Ipamorelin → steady GH pulses for recovery + lean
mass.

AOD-9604 → burns fat while sparing muscle

MOTS-c → boosts mitochondrial function + energy.

**The ultimate body recomposition
stack that supports fat loss, lean
muscle, and recovery.**

EL REY.™

RETATRUTIDE

Retatrutide → triple agonist (GLP-1 + GIP + GCGR) for powerful appetite control, enhanced fat burning, lean muscle preservation, and metabolic reset,

Deeper appetite control, potentially stronger insulin sensitivity improvements and enhanced fat-to-energy conversion.

***price varies by dose**

Retatrutide is a new weight-loss medication that's still being studied and isn't yet FDA-approved. Under a special federal research program (an IND), our certified pharmacy partner can safely prepare it just for you with my discretion as your provider. Many patients are seeing success with less side effects, though it remains investigational.

A TODA MADRE™

SLU-PP-332

SLU-PP-332 → activates endurance and fat-burning pathways in the body, shifting metabolism to use fat for fuel, improving stamina, recovery, and lean body composition.

Mimics endurance training by switching the body to burn fat for fuel and supporting lean muscle preservation.

ELITE PROTOCOLS

TEXAGLUTIDE STACK™

TIRZEPATIDE + L-CARNITINE

Tirzepatide → dual GLP-1 + GIP agonist for appetite control + metabolic regulation

L-Carnitine → enhances fat use as energy.

Premium weight loss + energy support for appetite control, improved insulin resistance, and metabolic correction.

***Price varies by dose**

ELITE

NO CHANGES, RELAX STACK.™

SEMAX + SELANK

Semax → boosts BDNF (brain growth factor) to enhance memory + focus.

Selank → calms anxiety by modulating serotonin + GABA.

Supports sharper focus, stress reduction, and clearer thinking — no crash. Supports anxiety and ADHD symptoms.

ÉCHALE GANAS STACK™

CJC-1295 + IPAMORELIN

CJC-1295 → extends natural growth hormone release

Ipamorelin → gentle GH pulses for recovery + repair

**Supports lean muscle, fat
metabolism, deeper sleep, and
faster recovery. Big pumps,
bigger gains.**

EL CORTE STACK™

TESAMORELIN + IPAMORELIN

Tesamorelin → stimulates GH, specifically targeting
visceral fat.

Ipamorelin → steady GH support for muscle preservation
+ sleep.

**Ideal for cutting. Supports
visceral & abdominal fat loss,
lean muscle mass, and sleep.**

CORE PROTOCOLS

EL LOBO STACK™

BPC-157 + TB-500

BPC-157 → gut healing + promotes blood vessel growth +
tissue repair

TB-500 → inflammation control + muscle recovery

**A recovery classic that supports gut
health, faster recovery, and injury
healing.**

FUEGO STACK™

AOD-9604 + MOTS-C

AOD-9604 → signals fat cells to release stored fat for energy.

MOTS-c → improves mitochondrial energy + metabolic regulation.

Promotes fat burning, higher cellular energy, and lean muscle.

BIDI BIDI BOMBSHELL STACK™

GHK-CU + EPITHALON

GHK-Cu → stimulates collagen + improves skin healing

Epithalon → supports healthy aging via telomere repair

**Promotes skin elasticity,
cellular longevity, hair growth,
and a youthful glow.**

SAVAGE STACK.™

SERMORELIN + IPAMORELIN

Sermorelin → stimulates your pituitary gland to naturally
release growth hormone

Ipamorelin → GH secretagogue that boosts growth
hormone pulses

Supports recovery, sleep, and anti-aging. They synergize to increase natural GH production—improving body composition without overwhelming your system.

SLIMAGLUTIDE STACK™

SEMAGLUTIDE + L-CARNITINE

Semaglutide → weight loss GLP-1 + appetite reduction +
blood sugar regulation

L-Carnitine → helps transport fat into cells to burn for
energy.

**Supports appetite control, fat
metabolism, and steady
energy for weight loss.**

*Price varies by dose

ESSENTIAL PROTOCOLS

DE NADa+ STACK™

NAD+

NAD+ → a vital coenzyme found in every cell, essential for energy production and repair. It acts like a cellular “battery charger,” helping mitochondria turn food into energy while supporting DNA repair and healthy aging.

Supports energy, cellular repair, skin health, and weight management by helping the body use fat more efficiently for fuel.

ESSENTIAL

EL CURANDERO.™

BPC-157

BPC-157 → powerful healing peptide that accelerates tissue repair, reduces inflammation, protects the gut lining, and speeds up recovery from injuries.

Supports joints, tendons, and gut health — and one of the few peptides that can be taken orally.

ESSENTIAL

EL SANTO.™

SERMORELIN

Sermorelin → stimulates your pituitary gland to naturally
release growth hormone

**Supports recovery, sleep, and anti-
aging—improving body
composition without overwhelming
your system.**

ESSENTIAL

LA REINA™

GHK-CU

GHK-Cu → copper-binding peptide that stimulates fibroblast to produce collagen, elastin, and reduce inflammation.

**Supports better skin elasticity,
reduces wrinkles, promotes hair
growth and wound healing.**

ESSENTIAL
