

Commitment to Sustainability

Pitch Factory Limited accepts its responsibility to sustainability in respect of its operations and their impact environmentally, socially and economically.

As a SME, with a small number of employees, the focus for the Company is to effectively manage the way it delivers services to customers including the procurement of 'pass-through' services including print-procurement and other marketing related activities.

The principles on which the company operates are:

- The use of technology to deliver consultancy services
- Minimise travel, wherever possible
- To procure services on behalf of customers from suppliers who have made commitment to sustainability
- To procure services for the company from suppliers who have made a commitment to sustainability
- To minimise wastage
