## From the Aerie Secretary

First off let me introduce myself. I am Dean Miller Aerie 204's new secretary. I took over the position on June 1<sup>st</sup>. Thank you Rick for your 6 years of faithful service. If you see Rick around be sure and thank him.

The Aerie has been busy getting back those members that were dropped by Grand Aerie and new members since the beginning of the Eagle Year.

We welcome new members; Gail Cerenzia, Pat Miller, Patrick Lopeman, Gerri Rix, Sherry Fry, Ken Buttrell, Keith Allslot, Dillon Claire, Thomas Saylor, and Robert Aldridge (special thanks to Robert for stepping up and becoming the Aerie Chaplain). We welcome back; John Reynolds, Matt Coffman, Thomas Lewis and Michael Mutchler, John Gladden and Jeff Kinzel.

The Aerie is still looking for someone to step up to the Conductor position. If interested contact the Worthy President or you can give the office a call and we will forward the information. We are also in need of help with the monthly newsletter. Call the Aerie office so we can put you on our volunteer list.

Fraternally,

Dean Miller, Aerie Secretary

## From the Auxiliary Secretary

Hi Sisters! I just want to remind you that I still have to work for a living. I am a merchandiser some of the time and a Substitute Teacher the other part. So if the office is not open during office hours chances are I got called to work and no one else could come down. If you need to let me know your updated information (address changes) there is a pouch by my door for notes, just slip it in behind the paper. If you need to talk to me personally, give the Auxiliary office a call and leave a message, I will get back to you. Thank you for all of you understanding.

Fraternally Yours, Windy Farley, Auxiliary Secretary

## As Told by Bobby...

JULY AND AUGUST 2018

I am now in my chair writing about this month because it has been very hard on most all of us in my opinion.

Getting back from Dallas, Lady Diana and I were very tired. Stepping off that plane the heat was over 100, and tired as we were, we were pleased to see Rick Ream. His car was cool, and the ride home was wonderful. Now I had a day or two to rest up, but Diana had to go to work at 6 in the morning.

On Monday I started cleaning up the house. With all there was to do it took a few days. On about the 27<sup>th</sup> of July I was carrying many boxes to my storage room and a barbeque grate fell over on my foot. With only soft slippers on, my toe got smashed pretty bad. God it hurt. It would not stop bleeding. So, now Bobby could not do much because every time I would do anything it would start bleeding and hurt like hell. There were a lot of bandages to soak up the blood. I used gauze and duct tape, changing the bandages every four hours. It was hard to sleep at night. Every day for three weeks it was over 100, but the gauze worked. I did not have any bloody sheets. The air conditioner started not working well. There was a bad smell in the house. Looking all over the house I could not find anything. This went on for two weeks. Then I needed more gauze for my toe. I found a drawer in the bathroom that was filled with bandages. As I took out the bandages, at the back of the drawer I found the stink in the house. Yes Sir! A dead rat! There was creepy crawly stuff with flies. It was bad. After three days the smell was gone. On the 24<sup>th</sup> of July Lady Diana and I went to Bridgeport. The Aerie had trouble with MMS and dues cards, and the officers not knowing what to do. Diana took charge and helped the officers. As most of you know she is a whiz in the Wenatchee office. The air conditioner at Bridgeport was broken down and they had fans, but they did not help much. I told them if they would come down to my house in Wenatchee they could have one, as I had two extra. Becky the bartender said she would be down that night. It was getting dark when the two of us left Bridgeport. Both of us had not eaten and were in need of food. Now home and in bad shape the refrigerator was raided. I went to bed. Becky called about 11:30 and told Diana she was in town. Now it's rare for Diana to wake Bobby. I got up and dressed, went out to my storage house and got the air conditioner. Wow! That girl is on it. As I got the hand truck to the fence she drove up.

My own air conditioner in the heat pump started not working well. So, the house started getting hotter every day. So, I called Matt. He came over and jumped out the heat pump and it started to work. But it lasted only until he was out of sight. I had a smaller second air conditioner and I turned it on. It helped, but not enough. After three more days it was so hot in the house that about three in the morning there was a terrible smell. Bobby went looking and after about an hour in the pantry a can of crab had blown up. It was like a bomb had gone off. The top of the can was twisted, and almost bent in half. The bottom was still holding, but pushed down about an inch and the crab was gone. The stench was unbearable. After cleaning up the pantry the stench was still around. At five AM I went back to bed. The next morning I called Matt and told him Lady Diana said it was 101 in her room and about the canned crab can. This prompted Matt to come over. Poor Matt, it was 104 and he was putting in a TXV valve in the attic no less. It was hard on him, but I gave him lots of ice water. The house is cool now, the smell is about gone, and the weather is better.

My toe is not bleeding. It's not sore, and now I can wear socks. I will lose the nail.

It seems with hot weather there is always problems. Yesterday Diana and I went back to Bridgeport. On the way the car got hot. The engine was out of water. I stopped at a farm. Two nice girls gave us water for the car. It was bad. It took half an hour of pouring water in the radiator to cool it down. Where the water went I still don't know. The road was being graded and graveled and there was a long wait for the pilot car to lead us on a long graveled road with gravel flying everywhere. Disheveled we got to the Bridgeport Aerie. There are so many fires that the smoke never lets up. All the way there and all the way back, breathing was hard, and eyes were hurting.

Bobby
