

COMPANY BIO

Founded on May 10, 2003, **Total Network Consulting** delivers technology and low-voltage infrastructure solutions that businesses can count on. Led by Chief Visionary Officer Jack Tavares, TNC was built with one mission: to bring clarity, strategy, and reliability to every project, no matter the size.

TNC partners with commercial and government clients to provide **managed IT services, smart hands support, network integration, and network infrastructure**, alongside **voice and data services, wireless systems, design and consulting, and premise security**. With a proven track record in private and public sector compliance, TNC executes complex, multi-site projects with precision and professionalism, ensuring clients have dependable systems that keep their operations running and ready for growth.
