Dinghy Dock Extensions **Weigh in, H, J, & K permit holders!**

Your input can make the difference. Responding to an NMA email and the City's postal notice, 14 people wrote Harbor Resources in support of the dock extension projects; several NMA members and NMA directors spoke in person, and the [Fernando St](#) and [15th St](#) dock extensions were approved in concept at the April 9th Harbor Commission ("HC") meeting. The next step for these projects will be to have more detailed plans drawn.

The [19th St](#) dock extension met with significant homeowner opposition due to noise, fishing, trash, and vehicle traffic from the existing public pier, so the HC recommended further study and outreach, followed by reconsideration. Harbor area boaters, drawn to McFadden wharf area bars and restaurants, need to consider 19th St. neighbors' expectations of peace and quiet around this public access point.

The Harbor Resources [staff report](#) on the dinghy dock extension projects contains more information. Please read it, then weigh in with your support and your constructive ideas.

H, J, and K field permit holders need to provide input on the 19th St. dock extension, so that a **balance of input** from all stakeholders may be presented to the HC. When this HC meeting date has been determined, we will post it here.

Commissioner Corrough wisely urged the 19th St. extension reconsideration be accomplished quickly so all three extension projects could be carried forward

Meetings:

Harbor Resources News:

The City of Newport Beach has a new [Harbor Resources Manager](#). Tom Rossmiller has retired, but will work part time on special issues such as dredging. Tom's right hand for several years, Chris Miller, has been selected the new Harbor Resources Manager. You will find Chris to be responsive, knowledgeable, capable. Congratulations, Chris! See the minutes of the April 2008 Harbor Commission meeting [April 2008 minutes](#)(pdf--47KB) .

We always appreciate your continuing support and valued opinions.
