

## **1. Anyone Who Tests Positive For COVID**

### ***a. Isolation:***

- i. Isolate at home for 5 days from the date symptoms first appeared or, if asymptomatic, the date of the positive test. Stay away from others in the household as much as possible during isolation.
- ii. After 5 days, if you have no symptoms or your symptoms are resolving and you have not had fever for more than 24 hours without the use of fever-reducing medication, you may end isolation. If symptoms are not improving or fever has not resolved, you should continue isolating until these criteria are met.
- iii. After ending isolation, you should continue to wear a mask around others for 5 days

## **2. Anyone Who Exhibits the Symptoms of COVID (Sick)**

### ***a. Isolation:***

- i. With the Results of a COVID TEST (Preferred)
  1. If you receive a negative test for COVID at least 5 days after initial exposure or symptoms, you may return to school as long as you are asymptomatic.
  2. The use of a mask is strongly recommended
- ii. Without the Results of a COVID TEST
  1. Isolate at home for 5 days from the date symptoms first appeared. Stay away from others in the household as much as possible during isolation.
  2. After 5 days, if you have no symptoms or your symptoms are resolving and you have not had fever for more than 24 hours without the use of fever-reducing medication, you may end isolation. If symptoms are not improving or fever has not resolved, you should continue isolating until these criteria are met.
  3. After ending isolation, you should continue to wear a mask around others for 5 days.

## **3. Persons Exposed to COVID**

### ***a. Quarantine:***

- i. If you have been exposed to someone with COVID-19 and you are:
  1. **Boosted, or have become fully vaccinated within the last 6 months**
    - a. You DO NOT need to quarantine at home.
    - b. You SHOULD wear a mask around others for 10 days
    - c. If possible, get tested on Day 5.
    - d. If you develop symptoms, get tested and isolate at home until test results are received, then proceed in accordance with the test results.
  2. **Unvaccinated, or became fully vaccinated more than 6 months ago and have not received a booster:**
    - a. You must quarantine at home for 5 days. After that, continue to wear a mask around others for 5 additional days.
    - b. If possible, get tested on Day 5.
    - c. If you develop symptoms, get tested and isolate at home until test results are received, then proceed in accordance with the test results.

**In all above circumstances, please call the school and communicate with our nursing staff and administrative team. At all times, the nursing staff and administration reserve the right to mandate at-home quarantine for unprecedented situations if needed to protect the health of our faculty and students**
