

# VICE for SIOS-C21B

VICE for SIOS-C21B buttstock is a high-tech electronic Weapon Orientation Module (WOM) for any weapon system with a MIL-SPEC 6-position buffer tube. It enhances situational awareness by providing real-time information about team members' locations and engagement directions.

Electronics include a 9-DOF IMU (Accelerometer + Gyro + Digital Compass), Microphone, and Bluetooth. VICE for GLOCK® sends weapon orientation (roll + pitch + yaw) to a connected TAK device. VICE for VK320 is compatible with the SmarTak® inForce ATAK Plug-in.

No external sensors needed. VICE for SIOS-C21B replaces your buttstock. **Does NOT change how your gun functions.** Adding VICE Helps your team communicate and overcome challenges. Motion analysis detects rounds fired, holster draw, and reholster with no additional sensors, and transmits it to the network via SmarTak® inForce ATAK Plug-in.

Model:	VICE-21B
MSRP:	\$299.99
Platform:	SIOS-C21B Buttstock
Weight:	1.57 oz (44.4 g)
Dimensions:	2.83 x 1.44 x 0.7 in (71.88 x 36.58 x 17.8 mm)
Battery:	600 mAh
Wireless:	2.4 GHz BLE Compatible
Capabilities:	Shot detection, weapon pose
