

Under Machine Mat

SUPPLY LIST:

Fabric	Front	22" x 24"
	Back	22" x 24"
	Trim	2" x 22"
	(3)	2" x 7"

Batting	22" x 24"
Screening	22" x 7" (will be supplied for boutique)

INSTRUCTIONS:

Trim

Fold in half length wise, press. Fold edges into pressed line and press again forming thin stem. Repeat on each piece of trim.

Screening

Divide screen into 3 sections. Crease. Place a small stem on top of each crease. Sew (Pin or baste is okay here because it will be sewn down later.)

Place long stem over edge of screening and SEW down.

Fabric

Place top fabric face up on top of batting. Place screen (with trim/stem edge on top side) on the bottom edge. Sew outer edges and bottom line. Sew on top of the three short trim/stem strips. DO NOT SEW on the top edge of trim/stem.

A little quilting can be done to secure the top layers.

Place top piece face down on the backing, Sew around the edges leaving an opening large enough to pull the fabrics right sides out.

Press, Top stitch around edge. If more quilting is needed do it now, and you are finished,
