

Belmar North HOA Gate Instructions

You and your family

Using the pad at the entrance press the **#** button then enter your personal entrance **code**. This is the code give you on your registration form (shh, don't tell anyone, it's a secret)

Guests

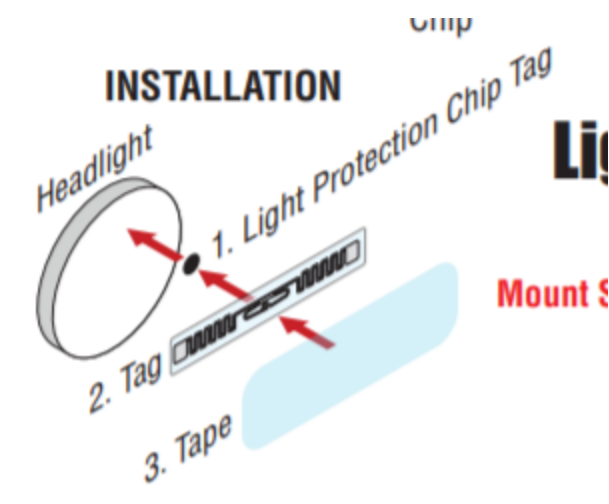

Guests will also use the pad above but will enter your directory code that you chose when you signed up (we suggested the last four of your phone number), not # on this one. Guests can also choose you name using the A and Z keys. Either method will call the phone number you provided. Once you verify who they are you can:

Someone you want to let in, hit the **9** and if that doesn't work hit the 9 twice quickly **99**

Someone you don't want to let in (i.e. bad guy) hit the **#**

RFID tag (Headlight Squiggle)

Your squiggle should be on your driver's side headlight and the black dot should be in the middle of the squiggle and be like this:

If your tag isn't working, try slowing down. You have plenty of time before the gate is open.
