SUMMARY OF THE PROCESS

- 1. Initial Enquiry and Consultation
- 2. Pre-assessment Questionnaires
- 3. Comprehensive Clinical Assessment
- 4. Potential additional information gathering
- 5. Diagnostic Report
- 6. Referral for support

DETAILED BREAKDOWN OF EACH STAGE

STAGE 1: INITIAL ENQUIRY AND CONSULTATION

Timeframe: Scheduled within 1 week of your enquiry.

- Contact Us: Reach out via phone or email to express your interest in an ADHD assessment.
- Information Provision: We'll provide details about the assessment process, fees, and answer any initial questions.
- Book your assessment: If you wish to proceed you can book your assessment.

STAGE 2: PRE-ASSESSMENT QUESTIONNAIRES

Timeframe: Complete at least a week in advance of your assessment.

- Questionnaires Sent: We'll email you a set of questionnaires to complete. These will include standardised rating scales and self-report forms.
- **Standardised rating scales:** These assess your symptoms of ADHD and other commonly co-occurring condition such as anxiety, depression and autism.
- **Self-report forms:** These give you the opportunity to tell us a little bit about your suspected ADHD symptoms and what areas of your life are impacted by these.
- Informant Forms: We will ask you to send forms to a family member or someone who knows you well for additional insights about their perspectives on your suspected ADHD symptoms. It may also be useful for you to send us any school reports you have access to, particularly from between the ages of 5 and 11.

Note: Timely completion helps keep the assessment process on schedule.

STAGE 3: COMPREHENSIVE CLINICAL ASSESSMENT

Timeframe: One session lasting 2–3 hours. This can be in person or online via videocall.

- In-depth Interview: Explore your developmental history, educational background, employment, and social relationships.
- **Symptom Discussion:** Detailed examination of ADHD symptoms across different settings and over time
- Mental Health Screening: Assessment of any co-existing mental health conditions.

Note: This process is not a test, and we are not trying to catch you out. We will work with you to gather as much information as possible to help us determine if a diagnosis of ADHD is right for you or if there may be something else that you need to consider.

You can get a more information on this stage of the process here:

STAGE 4: POTENTIAL ADDITIONAL INFORMATION GATHERING

Timeframe: Within 1-2 weeks of the assessment.

• Additional Perspectives: With your permission, we may speak with a parent, partner, or close friend if we need to gather more information.

• **Historical Records:** We might need to review any past assessments, school reports, or medical records if these have not been provided in advance of the assessment.

Note: This information enriches the assessment and supports accurate diagnosis.

STAGE 5: OUTCOME AND FEEDBACK

Timeframe: If you have provided us with all the information we before and during the assessment we may be able to provide you with an outcome at the end of the clinical interview. If we need more information, then we will share the outcome with you once this has been received and assessed. This usually occurs within 2 weeks of the assessment.

- **Diagnosis Explanation:** Once an outcome has been decided we will offer you a clear explanation of whether you meet the criteria for a diagnosis of ADHD.
- **Support options:** We will outline the options for support which can include accessing psychological therapy, medication, coaching and peer support as well as access to financial support.

STAGE 6: DIAGNOSTIC REPORT

Timeframe: Within 4 weeks of receiving your outcome

 Written Report: You will receive a detailed report outlining the findings, conclusions and support recommendations.

Outcome: You gain a thorough understanding of your assessment results and next steps.

STAGE 6: REFERRAL FOR SUPPORT

Timeframe: Following the feedback session and report completion.

- Medication: If you wish to access medication, we can refer you to our prescribing service where you
 can discuss different medication options.
- Therapeutic Interventions: If you wish to access therapeutic support from YCP we can offer you an initial appointment or add you to our waitlist. We will also send resources which detail how to look for therapeutic support if you wish to seek this elsewhere.
- Support Resources: Guidance on support groups and educational materials.

Note: We're here to help you navigate the next steps for managing ADHD.

PROCESS FLOWCHART

Initial Enquiry	Pre-assessment questionnaires	Clinical assessment	Potential further information gatthering	Outcome and feedback	Diagnostic report	Referral for support
•Receive information on the assessment process, fees, wait times •Book your assessment	Complete questionnaires on your suspected ADHD symptoms Complete rating scales exploring suspected ADHD symptoms and other co-occurring conditions Ask family/friends to complete questionnaires offering their perspectives on your symptoms Send school reports/diagnost ic resports	 In person or online meeting with your assessor A discussion about your personal history, your suspected ADHD symptoms and how they impact your life This is not a test but an opportunity for you to share your experiences and for your assessor to gather as much infomration as possible to decide if a diagnosis of ADHD is right for you or if something else needs to be considered 	 If we need more information we will ask for this before we make a decision This information might be from friends, family or other professionals 	If we have all the information we need at the end of your clinical assessment meeting we will be able to share the outcome with you then If we need more information we will share the outcome with you once this has been gathered and assessed When we share your assessment outcome will will share in detail how we came to this conclusion We will discuss with you potential next steps and support options We will also send resource sheets which offer details about where to get support and the types of support available	Within 4 weeks of recieving your outcome you will receive your diagnostic report This will explain in detail how we came to the outcome of your assessment and offerinformation about next steps and support options	If you wish to access medication we will refer you to our prescribing service to discuss your different medication options If you wish to access therapeutic support with YCP we can arrange an inital session or add you tour waitlist If you wish to receive support elsewhere our information sheets will offer guidance in how to access this
