

## **Mona: Janne Seletto**

David Walsh said,  
'I don't care what you like,  
The art won't be nice.  
Or bucolic or sweet.  
Give me works that are rude,  
If possible nude,  
And blasphemous - if that's still a thing.  
Like 'God is Your Enemy.'  
Art that can shock,  
Art that can knock  
You off your feet.'  
Visitors say 'I don't know about the art,  
But the architecture is amazing.'  
Underground, in the hillside,  
In the dark, it's a labyrinth.  
You get lost, then you find  
[Sidney Nolan](#)'s giant *Snake* mural,  
the wall of vaginas,  
Brett Whitley's *Naked Studio*,  
and [Cloaca Professional](#):  
the machine that makes poo.  
I don't know if David Walsh is famous,  
But he should be.
